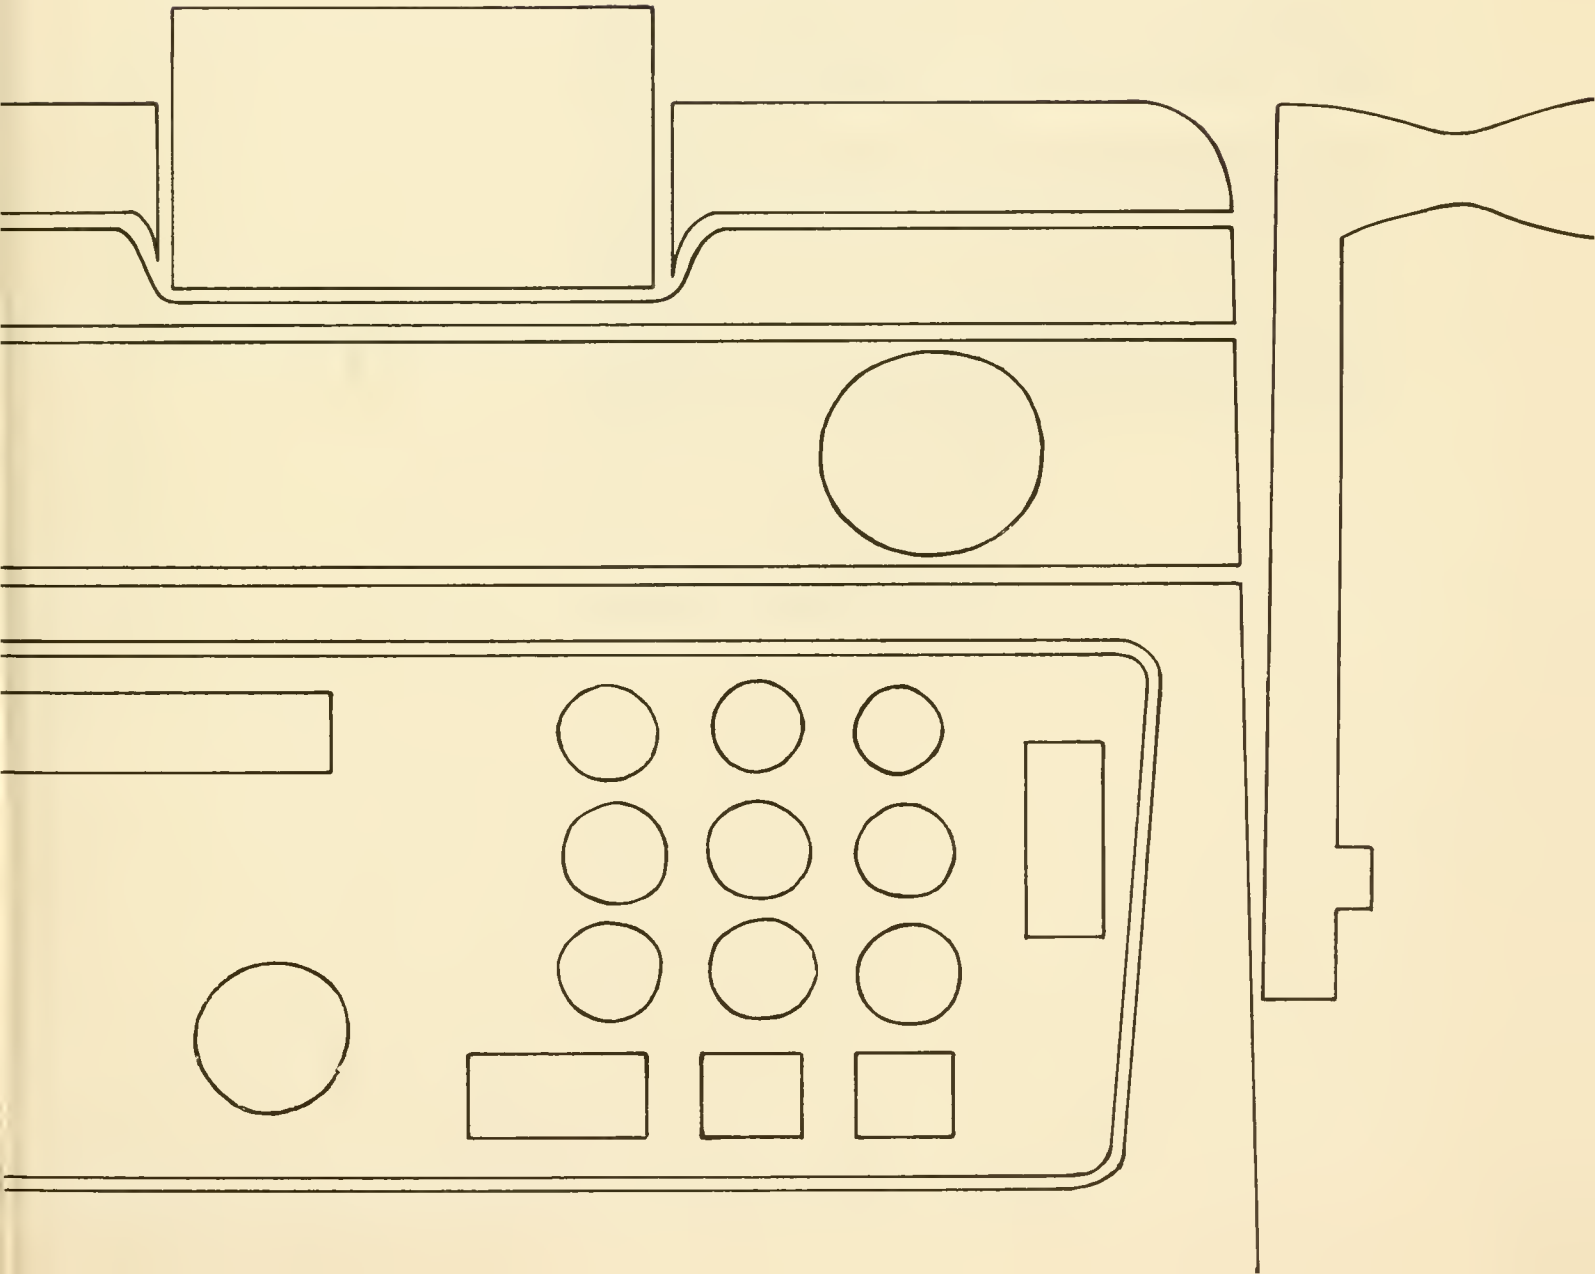
This report was prepared under the direction of E. J. DiPaolo, Chief, Business and Tax Exempt Statistics Section, Statistics of Income Branch.

Other branches of the Statistics Division assisted in development of the sample design, the preparation of processing procedures, and the review of the tables. The data were abstracted by the service centers at Andover, Massachusetts; Austin, Texas; Chamblee, Georgia; Covington, Kentucky, Fresno, California, Holtsville, New York, Kansas City, Missouri; Memphis, Tennessee, Philadelphia, Pennsylvania; and Dgden, Utah, and the Data Center in Detroit, Michigan, which also developed the computer systems design and conducted computer processing of the data



Letter of Transmittal

Treasury Department,
Office of Commissioner of Internal Revenue,
Washington, D. C., December 29, 1976.

Hon. William E. Simon,
Secretary of the Treasury.

Dear Mr. Secretary:

As required by section 6108 of the Internal Revenue Code we have prepared for publication this complete report, *Statistics of Income—1973, Business Income Tax Returns.* The report presents financial and economic estimates based on samples of returns of sole proprietorships and partnerships with accounting periods ended July 1973 through June 1974.

Classification of the data by industry and measures of business size are regular features of this annual report. Special topics this year include sole proprietors classified by size of net profit and partnerships with depreciable assets classified by size of business receipts. Balance sheet data for partnerships, which are compiled biennially, are also included in this issue.

Beginning with this year's report, summary data for corporations, including Small Business Corporations electing to be taxed through their shareholders, will no longer be presented in the Business Income Tax Returns report. Data for corporations will be published in *Statistics of Income, Corporation Income Tax Returns.*

Donald C. Alexander

Commissioner of Internal Revenue.

Sole Proprietorships

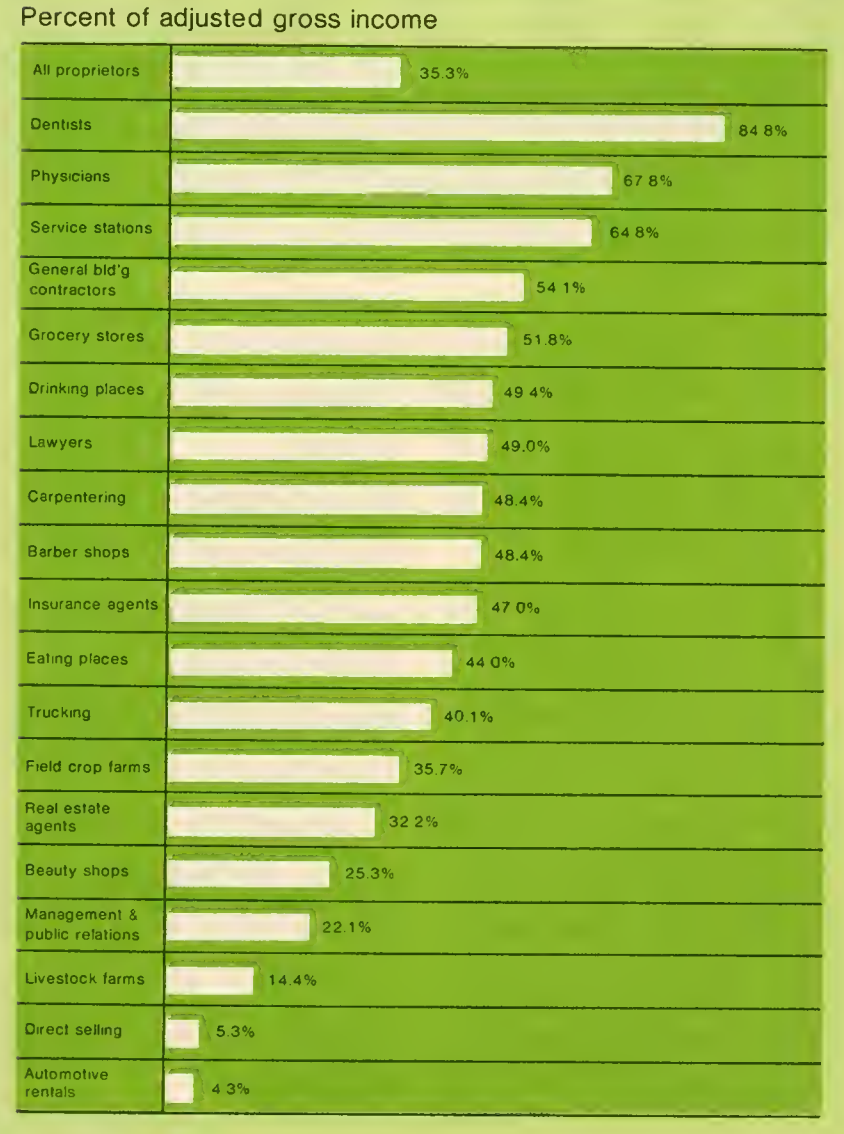
Business profits as a percent of adjusted gross income for proprietors in selected industries



Source Table 1 7

The statistics in the sole proprietorship section of this report are estimates derived from a stratified sample, selected before audit, of individual income tax returns filed for the 1973 income year. For nearly all taxpayers, the 1973 income year corresponded with the calendar year. A small number, however, reported for noncalendar years which ended during 1973 and 1974.

This section presents statistics for the single-owner businesses whose activities were reported to the Internal Revenue Service on the returns of individuals. These activities encompassed virtually the entire range of unincorporated, one-owner businesses, farms, and professional practices, from large enterprises with many employees and hired managers to the part-time operation in which the owner was the only person involved. For example, the owner of a fleet of taxicabs who conducted a business with the help of a large staff and the person who owned a cab and drove it during spare time to supplement the family income might both be included in the "sole proprietorship" statistics. Excluded were sole proprietorship businesses reported on the returns of

the fiduciary agents of estates and trusts; however, very little business activity was involved. For 1970, the most recent year for which data are available, there were estimated to be 33 thousand fiduciary income tax returns with sole proprietorship data showing a gross profit of $537 million. In contrast, the estimates for sole proprietorships reported on individual income tax returns for 1970 were 9.4 million businesses showing gross profit of $104 billion.

The basis for inclusion in these statistics was that the sole proprietor must have filed an Individual Income Tax Return (Form 1040) including a business or farm schedule (Schedule C or F) or Form 4835 (Farm Rental Income and Expenses) covering a farm, business, or professional practice. Form 4835 provided schedule F detail on income and expenses which were included in the farm statistics. In table 1.1, farms are subdivided into "farm operators" and "farm landlords." This latter classification reflected a common method of renting farm land, the "crop share" arrangement. In this arrangement, one person supplied the land and perhaps some operating capital and another person operated the farm, paying rent in shares of the resulting crop. For tax purposes, each reported a share of receipts from the sale of the crop and, if such was the arrangement, a share of expenses. The operator always reported his or her share of the receipts and expenses on the farm schedule, Schedule F. Likewise, if the landlord "materially participated" in the operation or management of the farm, the landlord used Schedule F to report his or her share of receipts and expenses. On the other hand, if the landlord did not materially participate in the operation or management of the farm, the landlord reported his or her share of receipts and expenses on Form 4835 and submitted Form 4835 with the rent schedule, Schedule E, of the individual income tax return.

For 1973, a return had to be filed by:

(a) A single person with gross income of at least $2,050,

(b) A married couple (or a single person age 65 or older) with gross income of at least $2,800,

(c) A married couple where one spouse was 65 or older and had combined gross income of at least $3,550,

(d) A married couple where both spouses were age 65 or older and had combined gross income of at least $4,300,

(e) A married person (regardless of age) whose spouse was filing a separate return (for example, to obtain a refund of income tax withheld), if that married person had a gross income of $750 or more.

There were two major exceptions to the above filing requirements

(1) A child being claimed as a dependent on his parents' return had to file if he or she had $750 or more unearned income (for example, dividends, interest, capital gains) and

(2) Sole proprietors not meeting the gross income requirements were still required to file if they had $400 or more income from self-employment (generally, this meant $400 in trade or business profits).

In addition, some sole proprietors filed returns even though not otherwise required, because they elected to pay self- employment tax on farm gross profit or because they were receiving a refund of taxes previously paid.

Generally, a sole proprietor corresponded to a "self-employed" person, although some persons considered self-employed under the Internal Revenue Code were excluded from the statistics, notably business partners and persons not actually engaged in a trade or business such as public officials and clergymen. The statistics also exclude persons engaged in a profession and craftsmen, neither of whom were required to file a Schedule C; for example, the physician on the staff of a medical school and not engaged in an outside practice or the electrician employed by a manufacturing corporation who did not have a part-time business utilizing his or her skills as an electrician.

The identification of a sole proprietorship from tax returns was not always exact. The taxpayer sometimes used Schedule C to report employee business expenses or partnership activity, and sometimes used other parts of the return to report sole proprietorship activity. Such errors were corrected during statistical processing whenever possible; however, not all of them were identifiable, resulting in the incorrect inclusion of a small amount of non-sole proprietorship activity and the exclusion of some legitimate sole proprietorship activity. These taxpayer reporting errors particularly affected the industry "Direct selling establishments" which includes door-to-door selling and selling merchandise at parties in private homes.

Industrial Activity by State

Tables 1.4 and 1.5 show sole proprietorship data classified by the State shown in the mailing address of the proprietor's return. This was usually the State where the proprietor lived, though a few proprietors used other addresses, such as business offices, the office of the practitioners

who prepared their returns, or post office boxes. With the limitation that a few proprietorship businesses were not located in the State the proprietor gave as the mailing address or operated in more than one State, the data in tables 1.4 and 1.5 represent estimates of sole proprietorship business activity in each State.

Table 1.4 provides data classified by detailed industry groups for the more populous States. Estimates for all States are presented in table 1.5. In order to achieve greater statistical reliability for the small- and medium-size States, industries were combined so that there are fewer industry groups in table 1.5 than in table 1.4.

Business and Nonbusiness Income

Table 1.7 shows data from the proprietors' Form 1040 individual income tax returns and their related business and farm Schedules C and F or Form 4835, cross- classified by size of the net profit or net loss from the business and the industrial activity shown on the Schedules C and F or Form 4835.

Some proprietors owned two or more businesses in different industries or sometimes even in the same industry if the taxpayer reported income and expenses relating to separate and distinct business operations. This complicates the presentation of the data in table 1.7. Adjusted gross income and the other data from Form 1040 for these proprietors were included in each industry in which they had a business, thus duplicating the return data from industry to industry. This made it difficult to construct "unduplicated" totals, and, for this reason, totals and subtotals are provided for only the "all industries" total, the industrial divisions, and "farms."

An "all industries" total containing no duplication of return data is given, but the components of adjusted gross income have a different meaning from the same figures in a particular industry. For an industry or an industrial division, "Other income less losses and adjustments" means all income included in adjusted gross income except for profits from businesses in that industry. For example, if a proprietor owned both a field crop farm and a grocery store (or if, on a joint return, one spouse owned one business and the other spouse the other business) the return, adjusted gross income, wages and salaries, other income less losses and adjustments, and income tax after credits would be included in the table three times. Under field crop farms and total farms, "Other income less losses and adjustments" would include the profit (or loss) from the grocery store, and under grocery stores, "Other income less losses and adjustments" would include the profit (or loss) from the field crop farm. In the "all industries" total, however, the return data are included only once; "Net profit less loss" includes the profits (or losses) from both businesses, and "Other income less losses and adjustments" includes only non-business income such as from investments.

There are many joint returns in table 1.7, which also creates difficulties in analyzing the data. If, for example, a joint return were filed by a husband who was the sole proprietor of a business and by a wife who worked, the return would be included in the data with the husband's business income and the couple's combined adjusted gross income. On the other hand, if the same couple had filed separate returns, only the husband's adjusted gross income would have been included.

Returns with Farm Net Profit or Loss

In past years, table 1.8 had been included in *Statistics of Income, Individual Income Tax Returns.* The nature of the table, however, lends itself equally well to inclusion in either that report or this report where it is shown this year.

The table shows sources of income, deductions, and tax items, classified by size of adjusted gross income, for Form 1040 individual income tax return filers reporting either farm income or loss on page 2 of the Form 1040. The basis for inclusion in table 1.8 was an entry on line 32, page 2, of the Form 1040 in the complete sample of individual income tax returns. On the other hand, the basis for inclusion in the "farm" industries of other tables in this report was conditional upon the filing of either a farm Schedule F or a Form 4835 (for "farm landlords") with the Form 1040. The farm net profit or loss estimates shown in table 1.8 compare favorably with those in other tables after excluding "farm landlords." For example, a farm net profit of $11,302,742,000 is shown in table 1.8: while net profit of "farms, operators only" in table 1.1 amounts to $11,312,382,000 a difference of less than 0.1 percent. This discrepancy may be attributed primarily to errors by the taxpayer, in incorrectly carrying forward totals from schedules to the Form 1040.

(*) Estimate is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals

[1]This is the standard error of the estimate expressed as a percent of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 7 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall

[2]Less than .05 percent

(*) Estimate is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percent of the estimate. The standard deviation, when added to and subtracted from the estimate in columns 1 through 8 to which it refers, gives the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]Less than 0.05 percent.

The statistics in the partnership section of this report are estimates derived from a stratified sample, selected before audit, of partnership returns of income filed for the 1973 income year. The 1973 income year was defined to include accounting periods which ended July 1973 through July 1974. About 1.1 million partnership returns were filed for this period.

The statistics in this section cover partnerships, joint ventures, syndicates, groups, pools, and most other associations of two or more persons organized for profit that were not specifically classified by the Internal Revenue Code as corporations. Partnerships were not taxable as such; the partners, who could be individuals, estates, trusts, partnerships, or corporations, reported their share of the partnership's taxable income (or loss) on their individual (corporation or other type) income tax return.

Not all partnership business activity is represented in these statistics. If there were special agreements among the partners to allocate certain of the income or expenses in ways not proportionate to their share interests, these income or expense items were not reported as a part of the partnership's income statement. They were reportable only on the partners' returns (although not always identifiable as such) and thus are not included here. In addition, the parties involved in joint production, extraction, investment, or use agreements that did not involve selling services or property produced or extracted could elect, under Code section 761, not to be considered as partnerships. The partners in such an agreement reported their share of the business income and deductions on their own returns, and no return was filed for the group. The actual extent of these business activities is not known; however, for petroleum exploration and production it is believed to be significant.

The partnership profit data in this report are not comparable to the income from partnerships in the *Statistics of Income, Individual Income Tax Returns* report principally because (1) the income year of the partnership does not always coincide with the income year of the partners, (2) not all partners are individuals, and (3) the partnership income reported on Form 1040 includes salaries and interest paid to partners in addition to net profit.

Industrial Activity by State

Tables 2.4 and 2.5 present selected data classified by industry and by the State where the return was filed. These data may serve as estimates of partnership business activity within a

Chart 2B

State, even though the business is not necessarily operated in the State where the return was filed. If the partners lived in a different State, for example, the return might have been filed in that State; and, of course, a few partnerships were operated across State lines. However, it was assumed that most partnerships conducted all their business activity in the same State where they filed their returns.

The sample of partnership returns was designed to yield national rather than State statistics, so reliable State estimates were not possible for many industry classes. For the less populated States shown in table 2.5, it was possible to show only a few broad industry groupings. Since separate weighting factors for the State data were computed by Internal Revenue district to increase the reliability of the State estimates, the United States totals differ slightly from totals in other tables.

Balance Sheet Data

Asset and liability information for those partnerships filing balance sheets is shown in table 2.8 classified by selected industry and in table 2.9 classified by size of total assets. Partnerships classified as having balance sheets include those reporting zero assets because they had liquidated. Although only about 66 percent of all partnerships are covered in these tables, most of the larger partnerships did include a balance sheet with their return. Consequently, 78 percent of partnership profits are included on returns with balance sheets.

(*)Estimate is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[2]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1, 3—8, 17, and 19—24 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[3]Less than 0.05 percent.

(*) Estimate is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[2]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1, 3, 7, and 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[3]Less than 0.05 percent.

NOTE: "Contractors not allocable," "Wholesale and retail trade not allocable," and "Nature of business not allocable" are not shown separately because of the small number of sample returns on which they were based. However, the data are included in the appropriate totals.

(*) Estimate is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.
[1]Total receipts for industries in Finance, insurance, and real estate and Business receipts for all other industries.
[2]United States totals include Puerto Rico and foreign returns.
NOTE: "Wholesale and retail trade not allocable" and "Nature of business not allocable" are not shown separately because of the small number of sample returns on which they were based. However, the data are included in the appropriate totals.

Changes in Law

The following is a law change affecting the statistics in this report.

Federal Unemployment Tax

The rate of Federal unemployment tax for 1973 was increased from 3.2 percent to 3.28 percent of the first $4,200 of wages paid to each employee during the calendar year. The Federal unemployment tax was imposed solely on the employer; it could not be collected or deducted from the wages of the employee. In the statistics, it would generally be included in the "taxes paid" deduction.

Industrial Classification

In the tables in this report, businesses have been classified by the industrial activity from which they derived the largest share of their receipts. Every business return or schedule in the samples was assigned to a single industry class, even though receipts may have been from several different types of activities. The industry classes used were based on the Office of Management and Budget's Standard Industrial Classification Manual, modified where necessary to fit the information available from tax returns for identifying industries.

Returns and schedules in the statistical samples were examined during statistical processing, and each was assigned a code classifying it by industry. In determining the code, the description of the business activity given by the taxpayer (and, for partnerships, the taxpayer-assigned code), the sources of the taxpayer's income, the nature of the expenses, and where necessary, information from various reference books were considered.

The fact that a reporting entity was in all cases assigned to a single industry class constitutes a limitation of the data. In the case of sole proprietorships, a code to identify type of industrial activity was assigned to each business and farm schedule attached to an individual income tax return. Since individual taxpayers normally filed a separate schedule for each separate business activity, and each such schedule was assigned to its own industry class, the limitation is not serious for sole proprietorships. It was more common, but still relatively rare, for partnerships to be extensively engaged in more than one type of business activity; however, it did occur, especially on the returns of larger partnerships, so there are some data in the partnership industry classes that are not really related to that industrial activity.

The Standard Industrial Classification Manual (SIC) for establishments, 1972 edition, served as the basis for the industry classification system in this report. The SIC industry classes were sometimes consolidated or modified because the information available from tax returns for determining industrial activity was limited and because not every industry was well represented in the statistical samples. Some industries are better represented by the legal forms, i.e., sole proprietorships and partnerships, covered in this report, for example, the trade and service industries. In contrast, the manufacturing industries are better represented by the corporate form. Most industry classes used in this report are equivalent to either the two, three, or four-digit industry level in the SIC system. However, a few classes represent a more detailed classification than the four-digit level of the SIC (for example, the SIC class, "Hotels, motels, and tourist courts" is divided into two classes in this report, "Hotels" and "Motels, motor hotels, and tourist courts"). One can usually determine equivalent SIC industries by comparing the SIC titles with the titles of the industries shown in the tables in this report. For equivalent industry classes, the SIC manual will give a detailed description of the content of the classes.

Explanation of Terms

This section contains brief descriptions of most of the terms appearing in the tables in this report.

The instructions for the tax forms in section 6 of this report will provide additional information about many items.

Explanations of terms are designed to aid in understanding the statistical content of this report and should not be construed as interpretations of the Internal Revenue Code or related regulations, procedures , or policies. Code sections cited are those which were in effect during period covered by this report.

Active Businesses

The statistics in this report are from the returns and schedules of "active" businesses only. An active business was defined as one reporting at least one item of income or deductions. Partnerships had to file returns even if they had no business activity during the year; however, returns having no items of income or deductions were excluded from the basic tables except the sample count tables in section 4. Sole proprietorships only filed business or farm schedules or Form 4835 if they had business activity, so there are no inactive sole proprietorships in any table.

Adjusted Gross Income

This amount was the result of reducing gross income from all sources subject to tax by adjustments such as the following:

(1) Ordinary and necessary expenses of operating a trade or business,

(2) Employee business and moving expenses,

(3) Expense deductions attributable to rents and royalties,

(4) Expenses of outside salesmen attributable to earning a salary, commission, or other compensation,

(5) Depreciation and depletion allowed life tenants and income beneficiaries of property held in trust,

(6) Exclusion of allowable sick pay if the sick pay was included in gross salary,

(7) Deductible losses from sales of capital assets and other property,

(8) Deductible half of the excess of net long-term capital gain over net short- term capital loss,

(9) Business net operating loss carryover, and

(10) Contributions to a retirement fund by the self-employed.

A deficit adjusted gross income occurred when the allowable deductions or losses exceeded gross income.

Amortization

Amortization was a deduction for deferred expenses written off during the year. The following types of amortization were specifically mentioned in the Code as allowable deductions:

bond premiums (section 171)
child care facilities (section 188)
coal mine safety equipment (section 187)
defense emergency facilities (section 168)
leasee's improvements to leased property (section 178)
on-the-job training facilities (section 188)

organization expenditures of corporations (section 248)
pollution control facilities (section 169)
railroad rolling stock (section 184)
railroad tunnel bores and grading (section 185)
research and experimental expenditures (section 174(b))
trademark and trade name expenditures (section 177)

Of these, amortization of leasehold improvements was frequently included in depreciation and amortization of bond premiums was often shown as part of "other deductions." Write-offs of patents, copyrights, and other intangibles were usually included in depreciation.

Bad Debts

Bad debts occurring during the year or a reasonable addition to a reserve for bad debts was allowable as a deduction under section 166 of the Code.

Recoveries of bad debts previously deducted by taxpayers who used the reserve method were netted against the year's bad debt deduction; recoveries by taxpayers deducting actual bad debts were included in income.

Business Receipts

Business receipts were, in general, gross receipts from sales and operations reduced by the cost of returned goods and allowances. They may have included excise and sales taxes which were included in the sales price of the product; some taxpayers reported receipts this way and deducted the taxes as expenses, while others reported their receipts after adjustment for any taxes.

For sole proprietorships, business receipts were all income from the operation of the business, including incidental income from such things as sale of scrap or cash rebates that corporations and partnerships generally included in "other receipts." Dividends, interest, rents, royalties, and other investment-type income were generally not included in sole proprietorship receipts, though rents or interest that were actually income from business operations were sometimes included, for example, rents received by real estate operators and interest received by small-loan companies.

In table 1.1, business receipts of sole proprietorships are classified into the two components, "income from sales and operations" and "other business income." "Income from sales and operations" comprises gross receipts or sales from the trade, business, or farm. "Other business income" includes sales of scrap, amounts recovered from bad debts, and interest, as well as other kinds of miscellaneous income. For farms, "Other business income" also includes patronage dividends from farmers' cooperatives, agricultural program payments, and gasoline tax credits and refunds.

For partnerships, business receipts were, generally, the income from the company's principal business activities. Rents earned in addition to the company's principal income and interest, royalties, and nonqualifying dividends were, for the most part, reported separately. Incidental income, such as cash discounts or recoveries of taxes or bad debts previously deducted, was usually shown as "other receipts."

Returns filed by partnership security dealers were given special treatment in statistical processing. Sales of securities were netted against the cost of these "goods" and only the net amount was shown as business receipts. Since it was usually not possible to separate sales of securities from other sources of receipts, such as commissions, an arbitrary rule was used for partnerships in the specified industries; if cost of sales and operations was 50 percent or more of business receipts, costs were subtracted from receipts and the difference was used as business receipts. No such adjustments were made for sole proprietorships in these industries, and the receipts and cost of sales and operations were shown in the tables as the taxpayers reported them (see also "Cost of sales and operations" in this section).

Business receipts from farming were understated for all forms of business, because they did not include receipts from the sale of livestock held for draft, breeding, dairy, or sporting purposes. Income from the sale of such cattle and horses held for at least 2 years and other livestock (except poultry) held for at least 1 year was reported as gain or loss from the sale or exchange of property rather than as business receipts.

Cost of Depreciable Property

Cost of depreciable property was shown in the statistics only for sole proprietorships. It was generally the undepreciated cost or other basis of property upon which the current year's depreciation deduction was based. It was taken from the depreciation schedule on Schedule C or Schedule F of Form 1040. Since the cost was only for property used in the proprietorship businesses, the cost of property held for the production of income reported on Schedule E (rents and royalties) was excluded.

The cost of depreciable property for sole proprietorships was the cost of tangible property (such as buildings and equipment) and cost of the intangible assets (such as patents and copyrights) having a useful life of 1 year or more and on which depreciation was allowed. The data included cost of property without regard to salvage value, but they were edited in statistical processing, when possible, to exclude the cost of any fully depreciated property.

The cost of depreciable property for sole proprietorships was similar to, but not identical with, the balance sheet account, "depreciable assets," reported by partnerships. Balance sheet accounts reflected the value of depreciable assets reported in the books of account while cost of depreciable property was the cost of that property on which depreciation was allowable for tax purposes in determining net profit or loss.

Cost of Labor

Cost of labor was a component of cost of sales and operations. For sole proprietorships in nonfarm industries it represented the amount reported on line 3, page 1 of Schedule C-1, Form 1040. For sole proprietors and partnerships engaged in farming using Schedule F, which did not contain a cost of sales and operations schedule as such, it represented the amount reported on page 1, part II, item 29 "labor hired." For nonfarm partnerships, it was the amount reported in Schedule A, line 29 on page 1 of Form 1065. (See "Payroll.")

Cost of Sales and Operations

If the receipts of the business included income from the sale of merchandise, cost of goods sold generally included the direct cost of that merchandise. In this sense it included goods purchased for resale (including inventory change) in trade industries, and raw materials, supplies, labor, and other direct costs in agriculture, mining, manufacturing, and other industries whose principal activity was producing goods. "Cost of operations" related to returns for which inventories were not an income-determining factor.

If the receipts of the business were from the sale of services rather than goods, the corresponding figure for cost of operations was not always comparable for sole proprietorships and partnerships. For partnerships, cost of operations generally included labor costs, supplies, rental of machinery and equipment, and other direct costs of producing the services. Many partnerships and most sole proprietorships did not report cost of operations as completely as did corporations, allocating the costs to the expense items rather than to cost of operations.

Farm costs for sole proprietorships and partnerships presented special problems because the schedule used did not provide for a cost of goods sold or cost of operations computation. The cost of sales and operations statistics presented here for unincorporated farms were constructed from the expense schedules during statistical processing. See the discussions in this section under "Merchandise purchased," "Cost of labor," "Material and Supplies," and "Other costs."

For both sole proprietorships and partnerships, certain deduction items which might sometimes be considered direct costs were not included in the statistics for cost of goods sold (or cost of operations) if they could be identified. If taxpayers reported them there, they were removed during statistical processing and transferred to the appropriate deduction line. Transferred were all identifiable amounts of depreciation, depletion, amortization, taxes (including sales and excise taxes), and contributions to employee pension and other benefit plans.

Statistical adjustments to cost of goods sold made for partnership security dealers are explained in "Business receipts."

Depletable Assets

Depletable assets and accumulated depletion, reported on the balance sheet, are presented in this report for partnerships. In general, depletable assets represented the gross value of mineral property, oil and gas wells, other natural deposits, standing timber, intangible development and drill-

ing costs capitalized, and leases and leaseholds, each subject to depletion. Accumulated depletion represented the cumulative adjustment to these assets shown on the books of account.

The value of depletable assets and accumulated depletion may not be closely related to the current-year depletion deduction. The balance sheet accounts reflected book values; the depletion deduction reflected the amount claimed for tax purposes.

Depletion

Depletion, a deduction allowable for the exhaustion of natural deposits or timber, could be based on cost, or, for natural deposits, on a fixed percentage of gross income, less rents and royalties paid, from the depletable property. For oil and gas wells, gross income was computed on the value of the product at the well-head. For depletable property other than oil and gas wells, "gross income" included not only the value of the mineral extracted from the property but also the value added by some transportation of the mineral and certain "treatment processes considered as mining" (Code section 613(c)).

Percentage depletion, though based on percentages of gross income from the depletable property, was limited. It could not exceed 50 percent of the taxable income from the property, computed without the depletion deduction. The percentage depletion rates for each type of deposit were listed in Code section 613 and ranged from 5 to 22 percent.

The statistics include any identifiable depletion reported as a cost of sales and operations.

Depreciable Assets

Depreciable assets, reported in the partnership balance sheet, consisted of tangible property (such as buildings and equipment) which was used in the trade or business or held for the production of income and which had a useful life of 1 year or more. The statistics for depreciable assets exclude intangible assets. The amounts shown as accumulated depreciation represent the portion of the assets that were written off in the current year as well as in prior years.

The statistics for this item include Government-certified emergency facilities which were eligible for 5-year amortization in lieu of regular depreciation. Also included, when reported in the balance sheet as depreciable, were fully depreciated assets and partially completed assets for which no deduction was allowable.

The amounts shown in the statistics are, in general, the gross amounts before adjustments for depreciation charged in current and prior years. Some businesses, however, reported only the net amount of depreciable assets after adjusting for these depreciation charges.

In relating depreciable assets and accumulated depreciation to the current-year depreciation deduction shown in this report, it should be noted that the balance sheet accounts reflected amounts reported in the books of account, while the deductions were those claimed for tax purposes based on methods of computation and useful lives of assets which may have varied for book accounting and tax accounting purposes.

Depreciable Property

See "Cost of Depreciable Property."

Depreciation

The deduction for depreciation permitted a reasonable allowance for the exhaustion, wear and tear, and obsolescence of business property in cases where the estimated useful life of the property exceeded one year. The purpose was to enable businesses to recover the cost or other basis of depreciable property by allocating the cost of the property over its estimated useful life. A deduction for depreciation was not allowable on inventories, or land apart from the physical improvements or developments to it.

Several methods of computation could have been used in determining the deduction for the year. The most common method was straight-line, whereby an equal amount is deducted in each year of the useful life of the asset. The declining balance and the sum of the years-digits methods, whereby a larger portion of the asset's cost is written off during the earlier years of its life than during its later years, were also commonly used. These latter methods were specifically authorized by the Internal Revenue Code of 1954 and were generally permissible in the case of assets acquired after December 31, 1953. Standard useful lives, based on grouping assets according to the industrial activities in which they were used, were issued in 1962 as guidelines for establishing the "reasonableness" of the depreciation deduction. Use of them was tied to past retirement and replacement practices.

These "guideline lives" were modified for 1971 under the "class life asset depreciation range (CLADR) system. Under this system, assets of the same type acquired in the same year were grouped into one or more closed-end "vintage" accounts and the accounts were assigned useful lives chosen from a range of published useful lives. The range of useful lives was generally from 20 percent longer to 20 percent shorter than the industry-grouped "guideline lives" established under the previous rules; but the Treasury Department could modify the guidelines lives in the future as necessary. Use of the 1971 rules did not have to be justified based on past retirement and replacement practices. The only allowable depreciation methods under the system were the straight line, declining balance, and sum of the years-digits methods. Salvage value was not to be taken into account in computing depreciation, but no "vintage" account could be depreciated below a reasonable salvage value. Under the ADR system, depreciation of assets acquired prior to 1971 could be depreciated under the new rules but no range of useful lives was allowed.

Amounts shown as depreciation include any identifiable depreciation reported as an operating or manufacturing cost. Also included in the statistics are amounts deducted on leasehold improvements, patents, and copyrights. Additional first-year (section 179) depreciation was included in the statistics for proprietorships but for partnerships it was allocated to the partners for reporting on their own returns.

Employee Benefit Programs

Contributions by employers to employee benefit plans other than deferred-compensation plans were deductible under Code section 162 for all forms of business organizations. These plans included such things as hospitalization, health and accident insurance, group life insurance, and other employee welfare plans.

Contributions to retirement and other deferred compensation plans deductible under Code section 404 were included in "Retirement Plans."

Farm Net Profit (or loss), Partnership Returns

Farm net profit is shown in the partnership tables as an item of income, and farm net loss is shown as a deduction, for those partnerships not reporting the detail of income and expenses from farming. If a Schedule F, Form 1040, was attached supporting the amount reported as farm net profit or loss, the components were combined during statistical processing with the equivalent income and deduction items shown on Form 1065. For example, "rent of farm or pasture" was combined with the deduction item, "Rents paid." If no supporting schedule was attached, the net amounts were shown as farm net profit or loss. The detail was reported by most farm partnerships, so the amount shown in the tables is a residual representing only a small portion of partnership farming activity.

Income from Sales and Operations

See "Business Receipts."

Income (or loss) from Other Partnerships, etc.

This is the partnership's share of the profits (whether received or not) or losses of another partnership, except the partnership's distributive share of another partnership's capital gains or losses.

Income Tax after Credits

Income tax after credits shown in proprietorship table 1.7 was the sole proprietors' income tax liability for the year, after being reduced by any credits, including the investment, retirement income, foreign tax, and Work Incentive (WIN) credits. The liability was based on the proprietors' income from all sources and so was not directly related to the profits or losses from the sole proprietorship business. The income tax figure does not include the Social Security self-employment tax, tax from recomputing prior-year investment or Work Incentive (WIN) credits, additional tax for tax preferences ("minimum tax"), or Social Security tax on tip income.

The income tax figures in this report are generally the liability as reported on returns at the time of filing. Any adjustments resulting from audit and other events occurring after filing are not reflected.

Intangible Assets

Intangible assets were reported separately on the balance sheet if they were amortizable. Other intangible assets, not amortizable, were included with "other assets." Intangible assets could be amortized for income tax purposes only if they had a definite life and value. Accumulated amortization represented the cumulative adjustment to intangible assets shown on the books of accounts.

Interest Paid

Interest paid in connection with business indebtedness was deductible as an ordinary and necessary business expense. Included in the statistics was interest paid on deposits and withdrawable shares by banking and savings institutions. Also included were amounts paid by partnerships to a partner, acting in other than a capacity as a partner, for the use of capital.

Interest Received

This item for partnerships included interest received by the business from all sources except interest wholly tax-exempt and interest on tax-free covenant bonds.

This item for sole proprietors was not considered business income and was therefore reported elsewhere on the individual income tax return.

Inventories

Inventories consisted of goods held for sale or of raw materials and supplies that would become a part of goods held for sale. Taxpayers engaged in manufacturing, trade, or any other business (except farming) where the production, purchase, or sale of merchandise was an income-producing factor were required to use inventories in computing the gross income from their businesses. The use of inventories required that direct expenses of production, such as factory labor for a manufacturing concern, be accrued and charged against sales in the year the finished goods were sold. In accounting for the sale of goods, therefore, all such businesses were required to use the accrual method of accounting. Inventories were normally valued at actual cost or at the lower of actual cost or market price.

Farmers were required to use inventories only if they elected to use the accrual method of accounting for their profit or loss from the sale of farm products. Farm inventories consisted of livestock, harvested crops held for sale or for future use, and supplies. Growing crops and livestock on which depreciation was taken were not included in inventories. Farm inventories could be valued by special methods in addition to cost and lower of cost or market. Under the unit-livestock-price method, livestock was grouped by kind and age and all animals in each group were valued at the estimated cost of raising such animals. Under the farm-price method, each item of inventory was valued at the estimated market price, less cost of disposition. Valuing inventories by the farm-price method could result in an increase in the value of ending inventories over beginning inventories without any corresponding increase in expenses or costs.

Materials and Supplies

The amount of materials and supplies, a component of the cost of goods sold, was secured for sole proprietorships from Schedules C or F. For nonfarms, it was the amount on line 4, page 1 of Schedule C-1. For farms, it was the item "supplies purchased," line 37, part II, page 1 of Schedule F (for both cash and accrual methods of accounting). For nonfarm partnerships, it was the amount reported on line 30, Schedule A, Form 1065.

Merchandise Purchased

Merchandise purchased (called "purchases" for partnerships) was a component of the cost of goods sold. For nonfarm businesses, the sources were: (1) line 2, page 1 of Schedule C-1, Form 1040, and (2) line 28, Schedule A, of Form 1065. For farms, the sources were on Schedule F, column c, part I, page 1, for farmers using the cash accounting method, and line 71, part V, page 2, for farmers using the accrual accounting method.

Net Gain (or Loss), Noncapital Assets

This income for partnerships represented gains and losses from the sale or exchange of property not eligible for capital gains tax treatment. For partnerships, section 1231 gains and losses (in general, on sales of business property, excluding inventories, held for more than 6 months and "involuntary conversions" of these assets and of capital assets held over 6 months) are reported by the partners on their own returns. Sales or exchanges of noncapital assets were reported by sole proprietors as nonbusiness income.

Net Profit (or Loss)

For sole proprietorships, net profit (or loss) represented the difference between business receipts and the sum of cost of sales and operations and other business deductions. Sole proprietorship net profit did not include investment income; and salaries to owners and business-related contributions or gifts were includable elsewhere on the returns of sole proprietors and so are not reflected in sole proprietorship net profit or loss.

For partnerships, net profit (or loss) represented the difference between total receipts and the sum of cost of sales and operations and other business deductions. Total receipts included, in addition to business receipts, investment income attributable to the partnership (except capital gains and losses and gains and losses under Code section 1231 as explained under "Net gain (or loss), noncapital assets," above). The deductions for partnerships excluded both contributions or gifts and additional first-year depreciation, which were reported on the partners' returns.

In this report, the term "net profit" is used for both sole proprietorships and partnerships although it is not strictly comparable for the two forms of business organizations. Three differences are: (1) investment income is reflected in the partnership net profit but not in the proprietorship net profit; (2) salaries paid to the owners are a business deduction for partnerships but not for proprietorships; and (3) additional first-year depreciation is a deduction in the computation of sole proprietorship net profit but not in the determination of partnership net profit.

Nonqualifying Dividends Received

This investment-type income for partnerships represented certain corporate dividends which were includible in the income of the partnership and for which the individual partners were not entitled to a dividend exclusion on their individual income tax returns when the income was passed through to the partners.

Number of Businesses

Number of business organizations in this report represented the number of active businesses operated as sole proprietorships by individuals and the number of active partnerships.

Number of sole proprietorships was based on the number of Schedules C and F or Forms 4835 filed with the income tax return, Form 1040, of the sole proprietor. When sole proprietors submitted (with their Form 1040) multiple schedules covering the activities of more than one business, each of these schedules was counted separately. (See also "Farm Landlords and Farm Operators" in section 1 of this report.)

Other Business Deductions

See "Other Deductions."

Other Business Income

See "Business Receipts."

Other Costs

Other costs was a component of cost of sales and operations. For nonfarm businesses, these costs were reported on line 31, Schedule A, Form 1065, or line 5, page 1, of Schedule C-1, Form 1040. For farmers, the amount was computed from Schedule F, for both cash and accrual methods of accounting, as follows: farm expenses (total, part II, on page 1) less the sum of the items, labor hired, repairs and maintenance, interest, supplies purchased, taxes, insurance, rent of farm or pasture, retirement plans, amortization, and depletion. If inventories, purchases, and the other components of cost of goods sold were not reported, the entire amount was included in other costs for these statistics.

Other Deductions

Other deductions comprised business expenses which were not allocable to a specific deduction item on the return form, such as administrative, general, and selling expenses; bonuses; delivery, freight, and shipping expenses; truck and automobile expenses (except repairs); utilities; supplies; advertising and promotion; travel and entertainment; dues and subscription; postage and stationery; and, laundry, uniforms, and cleaning. For partnerships, this item also included unrealized profit on current-year installment sales; reported amounts of negative income; certain losses by fire, storm, shipwreck or other casualty, or from theft; commissions; insurance; and legal and professional

fees. For sole proprietorships the last three were shown as specific deductions.

Other Income Less Losses and Adjustments

This item in table 1.7 was computed as adjusted gross income minus adjusted gross deficit minus business net profit plus business net loss minus wages and salaries. In effect, it consisted of other sources of income, such as dividends, interest, and sales of capital assets— components of the taxpayer's total income.

Adjusted gross income equalled total income less statutory adjustments to income. Adjustments to income were comprised of sick pay, moving expense, employee business expense and self-employed retirement deduction.

Other Receipts

For partnerships, this item included amounts not elsewhere reported in the income statements, such as: income from minor operations; cash discounts; income from claims, license rights, and judgments; net amount earned under operating agreements; profit from commissaries; profit on prior years' collections (installment basis); recoveries of losses and bad debts previously claimed for tax purposes; refunds for cancellation of contracts; and income from sales of scrap, salvage, or waste. For sole proprietorships, these items would usually be reported as "other business income."

Partners' Capital Accounts

This balance sheet item for partnerships was the partners' total equity in the business as of the end of the taxable year. It was the net sum of all contributions of capital by the partners, plus the partnership's accumulated earnings, less accumulated losses and any distributions of capital and earnings.

Payments to Partners

Guaranteed payments which were made for services or for the use of capital where such payments were determined without regard to income of the partnership were allowed as a deduction in the computation of the partnership net profit (or loss).

Payroll

Payroll, shown in this report for sole proprietorships and partnerships, was the sum of cost of labor reported in cost of sales and operations plus salaries and wages reported among the deduction items. Various kinds of contract labor not actually representing payroll, such as janitorial or secretarial services, were also included. Payments to owners or partners were excluded.

Amounts of payroll were frequently included by taxpayers in other deduction items, such as commissions, legal and professional fees, repairs or other deduction items. Because of the difficulty of identifying such amounts, they were shown in these tables as reported by the taxpayer. Thus the amount shown for payroll is probably understated.

Pension, Profit-sharing, Stock Bonus, and Annuity Plans

See "Retirement Plans."

Purchases

See "Merchandise Purchased."

Rent (Paid)

Rent paid on business property was deductible as an ordinary and necessary expense. Identifiable amounts of taxes and other expenses paid by lessees in connection with rent paid were included in their respective deduction headings. Excluded were payments in the form of crops by tenant farmers to landlords under crop- sharing agreements.

Rents Received

Rents received for the use or occupancy of property consisted of the gross amounts. Depreciation, repairs, interest, taxes, and other expenses, which were deductible from gross rents, were included in their respective deduction items. The rental income of partnerships if it constituted the major portion of income was included in business receipts.

Repairs

This deduction included cost of labor and supplies and other costs necessary for incidental repairs to the property. It did not include capital expenditures which added to the property value, improvements which appreciably prolonged its life, or expenditures for restoring or replacing property, which were added to the depreciable basis of the property and recovered through depreciation.

The "class life asset depreciation range" (CLADR) system included a provision for accounting for repairs of property placed in a "vintage" account. Taxpayers using the system as the basis for their depreciation deduction could elect to deduct currently certain expenditures for repairs, maintenance, rehabilitation, or improvement up to a specified amount (repair allowance) for each account, with the excess capitalized in its own "vintage" account and depreciated (see also Depreciation).

Retirement Plans

This deduction item was the employer's contributions to employee pension, profit- sharing, stock bonus, annuity, bond purchase, or other deferred compensation plans that were deductible under Code section 404. It did not include any payments by self-employed persons to their own retirement plans, which were reported on individual income tax returns as adjustments used in arriving at adjusted gross income.

Royalties

This income item for partnerships was the gross amount received for the use of property rights, such as patents, copyrights, and mineral rights. Expenses related to this income, such as depletion and taxes, were not deducted directly from the income but were reported among the specific deduction items.

Excluded were certain royalties received under a lease agreement on timber, coal deposits, and domestic iron ore deposits, which were allowed special tax treatment. Under elective provisions of Code section 631, the net gain or loss on such royalties were included in the computation of net gain or loss on sales or exchanges of certain business property under section 1231 and as such were reportable by the partners on their own returns and not by the partnership.

Salaries and Wages

This item consists of those salaries and wages not included as a deduction for "cost of labor" in the cost of sales and operations schedule. Salaries to partners and sole proprietors were not included in this amount.

Taxes Paid

Taxes paid included the amounts reported as an ordinary and necessary business deduction as well as identifiable amounts reported as part of the cost of sales and operations. Included among the deductible taxes were ordinary State and local taxes paid or accrued during the year; social security and payroll taxes; unemployment insurance taxes; import and tariff duties; and business, license, and privilege taxes. Income and profits taxes paid to foreign countries or United States possessions were also deductible unless claimed as a credit against income tax. Not deductible were such taxes as Federal income and excess profits taxes, gift taxes, and taxes assessed against local benefits. If a business included in business receipts the excise and related taxes included in the sales price of its products, these taxes also were generally included in the deduction for taxes paid.

Total Assets

Total assets were those reported in the end-of-year balance sheet in the partnerships' books of account. Total assets were net after reduction by accumulated depreciation, amortization, and depletion, and by the reserve for bad debts. When these reserves were reported as liabilities, they were treated as reductions from the asset accounts to which they related and the totals of assets and liabilities were adjusted accordingly.

Total Deductions

Total deductions for sole proprietorships consisted of (1) the deduction for cost of goods sold and (2) the ordinary and necessary business deductions from gross income. In addition, for partnerships, total deductions also included expenses connected with investment income, and net loss from sales of noncapital assets. Total deductions for partnerships also included farm net loss and the partnership's share of net loss from other partnerships.

Total Receipts

For partnerships, total receipts represented the sum of business receipts, investment income

such as interest, rents, royalties, nonqualifying dividends, net gain from sale or exchange of noncapital assets, income from farms and other partnerships, and "other" income. For purposes of this report, total receipts did not reflect net losses from the foregoing sources.

Zero Assets

The final returns of liquidating or dissolving partnerships which had disposed of all assets were represented in this "asset size" category. The liquidating or dissolving partnerships had been active, however, during a portion of the accounting period.

Sample Criteria and Selection of Returns

The data in this report are estimates based on probability samples of the following returns: (1) Form 1040, Individual Income Tax Returns, selected at rates ranging from .03 percent to 100 percent on the basis of size of adjusted gross income, selected large income items, or proprietorship business receipts; (2) Form 1065, Partnership Returns of Income, selected at rates ranging from 1.6 percent to 100 percent on the basis of size of gross receipts, total income, and total assets. The returns were selected before audit. Tentative and amended returns were excluded from the samples, since another return for the same taxpayer was subject to sampling.

The estimates for the sole proprietorship tables in this report were intended to represent the total returns for income year 1973. While the overwhelming majority of returns revenue-processed in 1974 were for calendar year 1973, a few of them were for non- calendar years ended during 1973 and 1974, and some were delinquent returns

[1]Sampling rates were prescribed for the calendar year in which the returns were processed for revenue purposes. Returns for 1973 were for the most part, revenue processed during 1974 and were therefore sampled according to the plan applicable to calendar year 1974. However, included in the totals but not in the detail are 592 returns for 1973 sampled during 1973 from a population of 6,469 returns, under the sample plan applicable to that calendar year. In general, these were returns with accounting periods ended July through October 1973.

for prior years. Delinquent returns for recent years were used for the 1973 statistics in place of 1973 returns processed after December 31, 1974. In general, the characteristics of returns due but not yet filed could be represented best by returns for previous income years that were processed in 1974.

Partnership statistics for 1973 included data from calendar year returns as well as returns from non-calendar year accounting periods ending as early as July 1973 and as late as June 1974. Most of the partnership returns, however, covered the 1973 income year. Based on studies from previous years, it is estimated that about 92 percent of the partnership returns were for the 1973 income year.

For each type of return form, 1040 or 1065, a sample was selected from the universe of returns. The return characteristics used for stratifying each population are indicated in tables 4A and 4B with the strata limits and the number of returns in the population and sample per stratum. In all cases, distinct sets of monetary classes, the stratum limits, are listed beneath the characteristics which apply to them. For a return to fall in a particular stratum, both conditions on a line had to be satisfied.

Sampling rates were assigned with the objective of minimizing the coefficient of variation for estimates of important characteristics. Unbounded classes of large proprietorship and partnership returns were sampled at a rate of 100 percent.

The Form 1040 returns were divided into five groups by State and then sampled systematically by computer at intervals equal to the inverse of the sampling rates in each stratum. A supplementary sample was required because some returns were not subjected to the systematic sampling process. These by-passed returns were sampled using the ending digits of the social security number and certain digits of a document number which was assigned in the course of processing. Employer indentification number ending digits were used to select the Form 1065 sample.

Duplicate returns and inactive partnership returns (those returns showing no income or deduction items) were included in the sample but excluded from tabulations.

Method of Estimation

The total number of returns per stratum was obtained from computer and manual counts of returns processed in the 10 field processing locations scattered throughout the country. Actual weights, rounded to two decimal places, were obtained by dividing the number of returns in each population stratum by the sample count for that stratum.

The actual weights of sole proprietorships and partnerships were used to derive integer weighting factors that were applied to the sample returns. Suppose an actual weight for sole proprietorships (Form 1040 Business Returns) with adjusted gross income or largest source of income $30,000 under $50,000 and business receipts under $500,000 is 46.04. Then the integer weight of 47 was systematically assigned to 4 percent of the sample returns. All other sample returns in this class received the integer weight of 46.

Differences between the prescribed and achieved sampling rates occurred for the following reasons:

(1) Not all returns designated for the sample were found, even after followup,

(2) Employer identification numbers used for selection of the sample were not distributed equally throughout each region of the United States, and

(3) If the characteristics of the return varied considerably from the criteria of the assigned sampling group, then the return was reassigned to another sample class; however, none of the returns were reassigned to a sample group with a larger weight than that in which it originally fell.

Sampling Variability

The coefficient of variation (CV) is the standard deviation of the estimate expressed as a percent of the estimate. The standard deviation when added to and subtracted from the estimate provides the computed upper and lower limits within which approximately two out of three estimates derived from similarly selected samples would be expected to fall. Coefficients of Variation based on the sum of squares method are shown for selected estimates in each industry class for sole proprietorships and partnerships in tables 1.1 and 2.1.

[2]Not applicable since the estimated number of returns is greater than population estimates
NOTE Use column 1 for estimates not classified by size of business receipts

Coefficient of variation estimates based on a special formula are shown in tables 4C and 4D for frequency estimates in general. Since CV's in tables 1.1 and 2.1 were computed only for industry groups, tables 4C and 4D can be used to obtain measures of variability for estimated frequencies in other tables where the classification is not by industry.

Response and Other Nonsampling Errors

In transcribing and tabulating the information from the returns in the sample, additional checks were imposed to improve the quality of the resulting estimates. Incorrect or missing entries were corrected during statistical processing to make them consistent with other entries on the return or accompanying schedules.

Quality of the basic data abstracted at the processing centers was controlled by means of a continuous sampling verification system. Prior to tabulating, numerous computer tests were applied to each return record to assure that proper balance and relationship between return items were maintained.

In addition, an independent "quality assurance" review was conducted in the Statistics Division, National Office. This review consisted of an independent reprocessing of a small subsample of returns. Differences were noted and used to inform the processing centers of quality levels and to detect areas in which additional training or instructions were needed.

Finally, prior to publication, all statistics and tables were reviewed for accuracy and reasonableness, in light of provisions of tax laws, taxpayer reporting variations and limitation, economic conditions, comparability with other statistical series, and statistical techniques used in data processing.

However, the controls maintained over the selection of the sample returns, the processing of the source data, and the review of the statistics did not completely eliminate the possibility of error. Also, practical operating considerations necessitated allowance of reasonable tolerances in the statistical processing of the data..

5.2 Partnerships: Receipts, cost of sales and operations, depreciation, payroll, and net profit, by industrial division, 1964-1973, **232**

This section contains statistics for sole proprietorships and partnerships for the 10-year period 1964-1973. Tables 5.1 and 5.2 present selected income and deduction items for sole proprietorships and partnerships, classified by industrial division. These statistics were originally published in *Statistics of Income* for each year, Business Income Tax Returns. Detailed changes in law affecting the comparability of items for various years were discussed in the volumes for those years. A discussion of changes in law affecting depreciation is shown below.

Depreciation

Depreciation is discussed separately in this section since it is more directly affected by changes in the law whereas the other items (business receipts or net profit less loss, for example) may have been affected not only both directly and indirectly by a number of law changes but also by changing economic conditions.

Revenue Procedures 62-21, issued in July 1962, established useful lives of broad classes of depreciable assets, in general, based on industry, and allowed taxpayers to compute depreciation based on these class lives, instead of separately depreciating each asset. Use of the lives had to be justified by retirement and replacement practices.

Beginning with 1971, a new elective system of accounting for depreciation for tax purposes was instituted. Under this system, assets of the same type acquired in the same year were grouped into one or more closed-end "vintage" accounts and the accounts were assigned useful lives chosen from a range of published useful lives.

The Tax Reform Act of 1969 provided that the rates for depreciating real property (except residential property) by methods other than the straight-line method were limited for property acquired after July 24, 1969, to 150 percent of the amount allowed under the straight-line method for used property. For new residential property, the upper limit on depreciation claimed continued to be 200 percent of the straight-line depreciation; for used residential property, the limit was 125 percent of straight-line depreciation, except for "low-income residential property." Expenses for rehabilitating low- income residential property could be amortized over a 60-month period in lieu of being depreciated.

The Tax Reform Act of 1969 also provided that expenses incurred after 1969 for the planting, cultivating, maintenance, or development of citrus groves before the close of the fourth taxable year beginning with the taxable year in which the trees were planted must be capitalized instead of deducted currently. This applied to trees planted or replanted on or after December 30, 1969. Subsequently, expenses for developing almond groves were given the same treatment as those for citrus groves for taxable years beginning after January 12, 1971.

Guide for Preparing a Return

You may find it helpful in completing your Form 1040 to follow these steps and check them off as you go.

—— **Step 1.—Gather up your income records** including Forms W–2, W–2P, and 1099. If your employer does not give you a Form W–2 by January 31, or if the one you have is not correct, contact your employer as soon as possible. Only he can issue your W–2 or correct it.

—— **Step 2.—If you are going to itemize your deductions, collect your expense records**, such as medical and dental bills, real estate taxes, State income tax, home mortgage interest, and charitable contributions. To make sure you do not forget any items, look on pages 10 through 13 of these instructions. Check the types of expenses you can deduct. Put these records aside until later.

—— **Step 3.—Get the forms or schedules you need** but did not receive by mail. See the order blank. It will help you decide which ones you will need.

—— **Step 4.—Name and Address.** Use the mailing label on the forms we sent you. Correct your name and address if necessary. Also show your apartment number if you have one. If you did not receive forms with a label, print or type your name and address. If you are in the Armed Forces, use your permanent home address. (**Note:** Show your own address unless you want us to mail your refund or other correspondence to a person acting for you. In this case, attach to your return a power of attorney that tells exactly what you want done.)

—— **Step 5.—County of Residence.** Fill in this block. See instructions for County of Residence on page 4.

—— **Step 6.—Social Security Number.** If your social security number is wrong on the label or if you did not receive a label, show your correct number on your return. If you are married and your spouse has a social security number, please give numbers of both you and your spouse whether you file jointly or separately.

If you do not have a social security number, get an application **Form SS–5** from a Social Security Administration office, post office, or from IRS. File it with the local office of the Social Security Administration. Do this early enough to make sure you receive a number before April 15. If you do not receive your number by April 15, file your return without it and write "Applied for" in the space for social security number.

Don't forget to show occupations in spaces in upper right corner just below social security blocks.

—— **Step 7.—Filing Status.** Check only one block (lines 1 through 5). Your tax rate depends on the block you check. So before you decide, see instructions for Filing Status on page 4.

—— **Step 8.—Exemptions.** Fill in lines 6a, b, c, d, and 7. See instructions for Exemptions on page 5.

—— **Step 9.—Check appropriate box(es)** on line 8. If you wish to designate $1 (if joint return, $1 each for husband and wife) to the Presidential Election Campaign Fund. If you check the box(es), it will not increase your tax or reduce your refund.

—— **Step 10.—Fill in the schedules and forms** mentioned for lines 28 through 32, and 39 through 42 if you need to. Enter the totals from your schedules on the correct lines on Form 1040.

If you need more space on forms or schedules, attach separate sheets that follow the same size and arrangement of the printed forms, but show your totals on the printed forms. Be sure to put your name and social security number on these separate sheets.

—— **Step 11.—Fill in lines 9 through 15.** This will give you your adjusted gross income. The instructions between lines 15 and 16 are guides to tell you where to proceed after you have filled in line 15. If the third instruction is applicable, be sure to check the block.

—— **Step 12.—Decide whether to use the standard deduction or itemize your deductions.** The instructions Should You Use the Standard Deduction or Itemize Your Deductions? on page 7 will help you decide.

—— **Step 13.—Figure your tax if you decided to take the standard deduction and you DID NOT check the block between lines 15 and 16 (if you checked the block, follow the instructions on page 7; or, if you decided to itemize, skip to Step 14).** If line 15 is under $10,000, find your tax in Tax Tables 1 through 12. (The standard deduction is included and your tax is already figured out for you.) Enter the amount on line 16. Skip the rest of this step and step 14.

If line 15 is $10,000 or more, fill in lines 44 through 48 on the back of your return. (Your standard deduction goes on line 45.) Use Tax Rate Schedule X, Y, or Z to figure your tax. Show the amount on line 16. Skip step 14.

—— **Step 14.—Figure your tax if you decided to itemize deductions.** Fill in Schedule A and enter your total deductions on line 45 of Form 1040. Fill in lines 44, 46, 47, and 48. Use Tax Rate Schedule X, Y, or Z to figure your tax. Show the amount on line 16.

—— **Step 15.—Fill in lines 49 through 65 if you have credits, other taxes, or other payments to report.** Complete the forms or schedules asked for. Enter the amounts from these lines on the front of your return. Fill in any other amounts needed for lines 17 through 26.

—— **Step 16.—Check the appropriate block to answer the Foreign Account Question after line 65.** See instructions for Do You Have an Account in a Foreign Country? on page 10.

—— **Step 17.—If you owe tax,** show amount on line 23. Attach check or money order for full amount when you file. Make it out to "Internal Revenue Service" and be sure to write your social security number on it. If line 23 is under $1, you do not have to pay.

—— **Step 18.—If we owe you a refund,** show amount on line 24. On line 25 or 26, show whether you want some or all of the money refunded or credited to 1974 estimated tax. If line 24 is under $1, we will send you a refund only on written request.

—— **Step 19.—Recheck Your Return.** Go over all items and make sure they are right. Also check your arithmetic.

—— **Step 20.—Sign Your Return.** It is not considered a return unless you do. Both you and your spouse must sign a joint return. If you pay someone to prepare your return, be sure that person also signs. If prepared by a firm or corporation, it should be signed in the name of the firm or corporation. If prepared by your regular, full-time employee, such as a clerk, secretary, or bookkeeper, the employee does not have to sign.

—— **Step 21.—Attachments.** Attach Forms W–2 or W–2P (copy B) to front of Form 1040. If you took an adjustment for sick pay on line 39, be sure to attach Form 2440 or statement if the sick pay is not shown on Forms W–2 and W–2P. Attach schedules in alphabetical order and forms other than W–2 or W–2P in numbered order to the back of Form 1040. If you owe tax, be sure to attach your payment to the front of Form 1040.

Note: If you move to a new address after filing your return and you are expecting a refund, be sure to file a change of address with the post office serving your old address. Unless you do this, the post office cannot forward your check to your new address.

Form 1040 Instructions

Where to Get Forms

In general, we mail forms and schedules directly to you based on what you filed last year. Many people will need only Form 1040. The order blank inside the tax forms package will help you get many of the forms, schedules, and publications referred to in these instructions. Many banks and post offices have the same material. However, if you don't find what you need there, please fill out the order blank and we will send them to you.

Who Must File

(See page 6 for examples of income)

File a return if you are:	And your gross income is at least:
Single or are a widow or widower, and are under 65	$2,050
Single or are a widow or widower, and are 65 or older	2,800
Single, can be claimed as a dependent on your parent's return, and have taxable dividends, interest, or other unearned income	750
Married filing jointly, living together at end of 1973 (or at date of death of spouse), and both are under 65	2,800
Married filing jointly, living together at end of 1973 (or at date of death of spouse), and one is 65 or older	$3,550
Married filing jointly, living together at end of 1973 (or at date of death of spouse), and both are 65 or older	4,300
Married filing separate return or married, but not living together at end of 1973	750
A person with income from sources within U.S. possessions	750
Self-employed and your net earnings from self-employment were at least $400	

If income tax was withheld even though you are not required to file a return, you should file to get a refund.

The filing requirement rules are for all U.S. citizens and resident aliens, including those under 21 years of age.

Deceased Taxpayer.—If a person died in 1973, or in 1974 before filing a return for 1973, the surviving spouse or executor or administrator of the estate must file a return for the deceased.

The executor or administrator can file a joint return with the surviving spouse. If an executor or administrator has not been appointed, the survivor can still file a joint return. All the income of both husband and wife must be included on it.

If you are filing such a joint return, write in the signature area that you are filing as surviving spouse. Show the date of death in the name and address space. If a refund is due, attach Form 1310 to your return. For more information on this, get **Publication 559**, Federal Tax Guide for Survivors, Executors, and Administrators.

Rounding Off to Whole Dollars.—You may round off cents to the nearest whole dollar on your return and schedules. You can drop amounts under 50 cents—increase amounts from 50 to 99 cents to next dollar. Example, $1.39 becomes $1 and $2.69 becomes $3.

Recordkeeping Requirements.—Get Publication 552, Recordkeeping Requirements And A Guide To Tax Publications, for details.

IRS will figure your tax if your income on line 15 is $20,000 or less, was only from wages, salary and tips, dividends, interest, pensions and annuities, and you want to take the standard deduction.

All you do is:

1. Place your name and address label on your return, or fill in name, address, and social security number. Also fill in County of Residence and occupation. On a joint return, show names, numbers and occupations of both husband and wife. If you are married, give numbers of both you and your spouse even though you file separately.
2. Fill in lines 1 through 7.
3. Check box(es) on line 8 if you want to participate in the presidential election campaign fund "check-off."
4. Fill in lines 9 through 15, lines 17, 19, 21a, b, and d, if necessary. Answer the foreign accounts question after line 65.
5. On a joint return, show you and your spouse's income separately on the dotted line to the left of the line 15 entry space.
6. Sign your return. Both you and your spouse must sign a joint return.
7. File on or before April 15, 1974.

We will then figure your tax and send you a refund check if you paid too much or bill you if you did not pay enough.

Note: If you have a retirement income credit, we will figure that also. Just attach **Schedule R** after you have answered the question for columns A and B, and filled in lines 2 and 5. Then write **RIC** on line 17 of Form 1040.

When To File.—As soon as you can after January 1, but not later than April 15, 1974.

Where To File.—Mail your return to the Internal Revenue Service Center for the place where you live. Use the addressed envelope that came with your return.

Instructions for Page 1 of Form 1040

County of Residence

Print or type the full name (do not abbreviate) of the County ("Parish" in Louisiana; organized "borough" in Alaska) in which you live, unless you live in one of the cities listed below, or in the District of Columbia, or in Alaska but not in an organized borough.

If you live in one of the following cities, enter its name, followed by the word "City."

Baltimore City, Maryland
Carson City, Nevada
Columbus, Georgia
St. Louis City, Missouri
Certain cities in Virginia—

Alexandria	Lynchburg
Bedford	Martinsville
Bristol	Nansemond
Buena Vista	Newport News
Charlottesville	Norfolk
Chesapeake	Norton
Clifton Forge	Petersburg
Colonial Heights	Portsmouth
Covington	Radford
Danville	Richmond
Emporia	Roanoke
Fairfax	Salem
Falls Church	South Boston
Franklin	Staunton
Fredericksburg	Suffolk
Galax	Virginia Beach
Hampton	Waynesboro
Harrisonburg	Williamsburg
Hopewell	Winchester
Lexington	

If you live in Washington, D.C., enter "D.C." If you live in Alaska not within one of the organized boroughs, enter the letter "U."

Note: If your principal residence is in a State other than the one shown in the mailing address, also show in the County of Residence block the State in which you reside.

Filing Status

Decide How You Should File From the Explanations Below

Were You Married or Single?—If you were married on December 31, consider yourself married for the whole year. If you were single, divorced, or legally separated on December 31, consider yourself single for the whole year. If you were a "Married person living apart from your spouse" as described below, consider yourself single for the whole year.

If your spouse died during 1973, consider yourself married for the whole year.

Married People.—Should you file joint or separate returns?

Joint Return.—In most cases, married couples will pay less tax if they file jointly.

You and your spouse can file a joint return even if you did not live together for the full year, or if one of you was a resident alien for the whole year. But you cannot file jointly if one of you was a nonresident alien at any time during the year. Both you and your spouse are responsible for any tax due on a joint return, so if one of you does not pay, the other will have to.

Things to Remember on a Joint Return.—Use the mailing label sent you with your return if it shows names and social security numbers of both you and your spouse. If it does not, or if you did not receive a label, show first names and middle initials of both. For example: John F. and Mary L. Doe. Enter social security numbers for both. Show all income, exemptions, and deductions of you and your spouse. Both of you must sign the return.

Separate Returns.—You can file separately if both you and your spouse had income or if only one of you had income. Both you and your spouse must figure your tax the same way. This means if one itemizes deductions, the other must itemize. If one takes the percentage standard deduction, the other must take the percentage standard deduction and cannot take the low-income allowance (this is $650 for a separate return). You each report only your own income, exemptions, and deductions, and you are responsible only for the tax due on your own return. If you and your spouse live in a community property State and both itemize deductions, those paid from joint funds can be divided equally between you. See **Publication 555**, Community Property and the Federal Income Tax.

Tax Savings.—Before you file a separate return, see if you can reduce your tax by meeting the tests described below in "Were You Married and Living Apart From Your Spouse?" If so, use the Single filing status or, if you qualify, Unmarried Head of Household.

Things to Remember on a Separate Return.—Check the block on line 3, "Married filing separately." If both you and your spouse file separate returns, write your spouse's full name in space provided on line 3 and enter spouse's social security number in designated space.

Check the applicable boxes on line 6b if you can claim the exemptions for your spouse. See instructions for Exemptions on page 5. Only the one who had income should sign the return.

Were You Married and Living Apart from Your Spouse?—Some married people can file as Single or as Unmarried Head of Household and ignore the rules for married people filing separate returns. This means that if your spouse itemizes deductions, you do not have to. You can use the standard deduction if you want. And, if you use the standard deduction to figure your tax, you can take the full amount allowed. You are not limited to $1,000. Both you and your spouse can file this way if both meet the tests.

You can file as a single person, and check the block on line 1 for Single, if you meet all of the following tests:

(1) **You file a separate return.**

(2) **You paid more than half the cost to keep up your home for 1973.**

(3) **Your spouse did not live in your home at any time during 1973.**

(4) **For over six months of 1973, your home was the main home of your child or stepchild whom you can claim as a dependent.**

You can check the block on line 4 for Unmarried Head of Household if your home in test (4), above, was the child's main home for all of 1973.

Were You an Unmarried Head of Household?—There are special tax rates for a person who can meet the tests for being an Unmarried Head of Household. See Tax Tables and Tax Rate Schedule Z.

To use unmarried head of household tax rates, you must, on December 31, 1973, be single or legally seperated, and meet test (1) or (2) below.

(1) You paid more than half the cost of keeping up a home which was the main home of your father or mother you can claim as a dependent (you did not have to live with that parent).

(2) You paid more then half the cost of keeping up your home which, except for temporary absences for vacation and school, etc., was lived in all year by one of the following:

(a) Your unmarried child, grandchild, foster child or stepchild. This person did not have to be your dependent.

(b) Any other relative you can claim as a dependent (see list under "Exemptions" on this page) provided he or she is not your dependent under a multiple support agreement (this is where two or more taxpayers supported the relative and no one gave more than half the support).

Taxpayers married to nonresident aliens can qualify as unmarried head of household under certain circumstances. See an IRS office for further information.

Were You a Widow or Widower With a Dependent Child?—You may still be able to use joint return tax rates for 1973. (See Tax Tables and Tax Rate Schedule Y.)

If your spouse died during 1972 or 1971, you can file a return for 1973 showing only your own income, exemptions, and deductions, and figure the tax at joint return rates if you meet all of the following tests:

(1) You did not remarry during 1973.

(2) You could have filed a joint return with your spouse for the year your spouse died. Whether you actually filed jointly does not matter.

(3) You have a child or stepchild you can claim as a dependent.

(4) Your home was the main home of that child during 1973, except for temporary absences for vacation and school.

Check the block on line 5 "Widow(er) with dependent child" and give year of death in the parentheses. Do not claim an exemption for your spouse. You can do this only for the year he died.

If your spouse died in 1973 and you did not remarry, read "Were You Married Or Single?" on page 4.

Exemptions ($750 for Each Exemption You Can Take)

Note: *If you take your tax from Tax Tables 1–12, do not take a separate deduction for exemptions. The deduction has already been allowed in the tax tables.*

Lines 6a and 6b—You and Your Spouse.—

For You.—You can always take one exemption for yourself. Take two exemptions if you were blind, or are 65 or older. Take three if you were both blind and 65 or older. Be sure to check all the boxes for the exemptions you can take.

Age and blindness are decided as of December 31. However, if your 65th birthday was on January 1, 1974, you can consider yourself 65 on December 31, 1973.

You can take the age and blindness exemptions for you and your spouse if your soouse does not file a separate return. Do not take these exemptions for your children or other dependents.

For Your Spouse.—If you are filing a joint return, you can take an exemption for your spouse. If you file a separate return, you can take an exemption for your spouse only if your spouse had no income and was not the dependent of someone else.

The exemptions for your spousa are like your own—one, if your spouse was neither blind nor 65 or older—two, if blind or 65 or older—three, if both blind and 65 or older.

If your spouse was a nonresident alien, you may claim your spouse's exemptions only if your spouse had no income and is not the dependent of another taxpayer. Use line 27, to claim exemption for a nonresident alien spouse instead of line 6b. Write your spouse's full name in column (a). Specify whether wife or husband in column (b). Write Nonresident Alien across columns (c) and (d). Use columns (e) and (f) to claim any additional exemptions for age or blindness. Write Blind or 65 or Over, if applicable.

In Case of Death.—If your spouse died during 1973, decide tha number of exemptions you can take for your spouse at the date of death.

Proof of Blindness.—If you are completely blind, attach a statement to this effect. In cases of partial blindness, submit with your return each year a statement from an eye physician or registered optometrist that you: (a) cannot see over 20/200 with glasses or (b) your field of view does not exceed 20 degrees. If, however, this eye condition will never improve beyond the standards in (a) or (b), you may submit a certified opinion to this effect from a skilled examining eye physician. You need to attach this opinion only once to your return. In subsequent years attach only a statement referring to this opinion.

Lines 6c and 6d—Children and Other Dependents.—Show on line 6c the first names and the total number of your dependent children who lived with you during 1973.

If you claim other dependents, complete columns (a) through (f) on line 27. If the dependent died or was born during 1973, write in column (c) D for died or B for born. Enter on line 6d the total number of dependents shown on line 27.

Each person you claim as a dependent has to meet all of the following tests:

(1) Income.—Received less than $750 income. (If your child* was under 19 or was a full-time student, ignore this test.)

(2) Support.—Received over half his support from you or is treated as receiving over half of his support from you under rules for "Children of divorced or separated parents" or "Dependent supported by two or more taxpayers." If you file a joint return, the support can be from either spouse. See "Meaning of Support."

(3) Married Dependents.—Did not file a joint return with his spouse.

(4) Citizenship or Residence.—Was a citizen or resident of the U.S., a resident of Canada, Mexico, the Republic of Panama or Canal Zone, or an alien child adopted by and living with a U.S. citizen in a foreign country.

(5) Relationship.—Met one of the following tests:

(a) Was related to you in one of the following ways (if you file jointly, the dependent can be related to either you or your spouse)—

*Child	Stepbrother	Daughter-in-law
Stepchild	Stepsister	If related by blood
Mother	Stepmother	Uncle
Father	Stepfather	Aunt
Grandparent	Mother-in-law	Nephew
Brother	Father-in-law	Niece
Sister	Brother-in-law	
Grandchild	Sister-in-law	
	Son-in-law	

*Child includes:
Your son, daughter, stepson, stepdaughter.
A child who lived in your home as a member of your family if placed with you by an authorized placement agency for legal adoption.
A foster child who lived in your home as a member of your family for the whole year.

(b) Was a person who lived in your home as a member of your family for the whole year.

Meaning of Support.—Support includes things like food, a place to live, clothes, medical and dental care, and education.

Generally in figuring support, you use the actual cost of these things. But if you provide a place for the dependent to live, include it at fair rental value.

Support **DOES NOT** include things like purchase of an automobile, furniture or appliances, income taxes and social security taxes, premiums for life insurance or funeral expenses for a deceased dependent.

In figuring who furnished over half of a dependent's support, include the dependent's own money used for his support, even if his money was not taxable. For example, include social security benefits, but if your child was a student, do not include amounts he received as scholarships.

Student Dependent.—Even if your child had income of $750 or more, you can claim him as a dependent if he was a full-time student and met tests (2), (3), and (4) above.

To qualify as a student, your child had to meet one of the following tests.

(1) was enrolled as a full-tima student at an educational institution* during any 5 months of 1973, or

(2) took a full-time, on-farm training course during any 5 months of 1973. (The course had to be given by an educational institution* or a State, county, or local government agency.)

*Educational institution means a school that has a regular teaching staff, course of study, and body of students in attendance. It includes elementary schools, junior and senior high schools, colleges, universities, technical and mechanical schools. It also includes a night school in which the student is enrolled for the number of hours or classes that is considered full-time attendance at a similar day school. It does not include on-the-job training courses, correspondence schools, etc.

For more Information, get Publication 532, Tax Information for Students and Parents.

Children of Divorced or Separated Parents.—In most cases, the parent who has custody of the child for the greater part of the year can take the exemption. But there are exceptions. The parent who does NOT have custody (or who has the child for the shorter time), may take the exemption if:

1. he contributed at least $600 toward the child's support during 1973, and the decree of divorce or separate maintenance (or a written agreement between the parents) states he can take the exemption, or
2. he contributed $1,200 or more for child support during 1973 (regardless of how many children), and tha parent having custody cannot prove that he contributed more than the other parent contributed.

NOTE: For purpose of determining the amount of child support, the parent who has remarried and has custody may count the support furnished by the new spouse.

For exceptions and other information get **Publication 501,** Your Exemptions and Exemptions for Dependents.

659—16—83194-1

Dependent Supported by Two or More Taxpayers.—If two or more taxpayers supported a person and no one gave more than half the support, get Form 2120 and Publication 501.

Birth or Death of Dependent.—Take a $750 exemption for a dependent who died or was born during 1973 if he met the tests for a dependent for the time he lived.

Line 8.—Presidential Election Campaign Fund.—You can tell us to turn over $1 of your tax to the presidential election campaign fund by checking the appropriate box on line 8. On a joint return, the election to designate or not designate is available to both spouses. For example: (1) Both may elect to designate $1 each for a total of $2. (2) Both may elect not to designate. (3) One may elect to designate $1 and the other choose not to.

If you check the box(es), it will not increase your tax or reduce your refund.

What Income To Report

Examples of Income You Must Report.—

Wages, salaries, bonuses, commissions, fees, and tips.
Dividends.
Earned income from sources outside U.S. (See Form 2555.)
Earnings (interest) from savings and loan associations, mutual savings banks, credit unions, etc.
Interest on tax refunds.
Interest on bank deposits, bonds, notes.
Interest on U.S. Savings Bonds.
Interest on arbitrage bonds issued after Oct. 9, 1969, by State and local governments.
Profits from businesses and professions.
Your share of profits from partnerships and small business corporations.
Pensions, annuities, endowments.
Supplemental annuities under the Railroad Retirement Act (but not regular Railroad Retirement Act benefits).
Profits from the sale or exchange of real estate, securities, or other property.
Rents and royalties.
Your share of estate or trust income.
Employer supplemental unemployment benefits.
Alimony, separate maintenance or support payments received from and deductible by your spouse or a former spouse.
Prizes and awards (contests, raffles, etc.).
Refunds of State and local taxes (principal amounts) if they were deducted in a prior year and resulted in tax benefits.
Fees received for jury duty and precinct election board duty.
Fees received by an Executor, Administrator, or Director.
Embezzled or other illegal income.

Examples of Income You Do Not Report.—

Disability retirement payments and other benefits paid by the Veterans Administration.
Dividends on veterans' insurance.
Life insurance sums received at a person's death.
Workmen's compensation, insurance, damages, etc., for injury or sickness.
Interest on certain State and municipal bonds.
Federal social security benefits.
Gifts, money or other property you inherited or that was willed to you.
Insurance repayments that were more than the cost of your normal living expenses if you lost the use of your home because of fire or other casualty. Repayment of the amount you spent for normal living expenses must be reported as income.
Combat pay (see explanation below).

Line 9.—Wages, Salaries, Tips, etc.— Show the total of all wages, salaries, fees, commissions, tips, bonuses, and other amounts your employers paid you before they took out for taxes, insurance, etc. Include in this total:

(1) The amount shown on Form W–2 in the box "Wages, Tips and Other Compensation" in 1973. See explanation below if you received combat pay.

(2) Tips you did not report to your employer (Show any social security tax due on these tips on line 59—instructions for this are on page 9).

(3) Wages you received but do not have a Form W–2 for.

(4) Fair market value of meals and living quarters if given by your employer as a matter of your choice and not for his convenience. If your employer provided meals where you worked and for his convenience, do not report their value. Do not report the value of living quarters if you had to accept them as a condition of employment.

(5) Strike and lockout benefits paid by a union from union dues, including both cash and the fair market value of goods received, unless the facts clearly show that such benefits were intended as a gift.

Get Publication 525, Taxable Income and Nontaxable Income, for more information on reporting income received in the form of goods, property, meals, etc.

If your employer paid you more than you spent for business expenses, see the instructions for Reporting Deductions and Excess Payments on page 9

Service in a Combat Zone (and Prisoners of War or Missing) before July 1, 1973.— An enlisted man does not have to pay tax on wages for any month during which he served in a combat zone or qualified for Hostile Fire Pay. Furthermore, he does not have to include wages received before or after June 30, 1973, while in a hospital because of injuries or sickness resulting from combat zone service prior to July 1, 1973.

A commissioned officer does not have to pay tax on the first $500 he received for any month during which he served in a combat zone or qualified for Hostile Fire Pay. Also he does not have to pay tax on the first $500 a month received before or after June 30, 1973, while hospitalized for sickness or injury resulting from combat zone service prior to July 1, 1973.

The pay of members of the Armed Forces and civilian government employees, during the time they were prisoners of war or missing in action because of the Vietnam conflict, is not taxed.

Service in a Combat Zone (and Missing or Prisoners of War) after June 30, 1973.— Contact your payroll officer or an Internal Revenue office for information concerning the exclusion rules for periods after June 30, 1973.

If you do not know if your Form W–2 includes wages on which you do not have to pay tax, ask your payroll officer. Such pay should not have been included, but if it was, ask for a corrected Form W–2 or a certificate to show your wages when you were in the combat zone or hospital. When you get the certificate, subtract the amount on it from the amount on your W–2 and include the difference on line 9.

Gross Dividends and Other Distributions on Stock.—If you own stock, you must report as dividends any payments you receive out of the company's earnings and profits. Usually dividends are paid in cash. But if you received merchandise or other property, you have to report its fair market value. Be sure to include amounts you received through a nominee or other middle person. Also include amounts you received as a member of a partnership or beneficiary of an estate or trust.

Do *Not* Report as Dividends:

Mutual insurance company dividends that reduce the premiums you pay. (These are not income.)

Dividends paid by savings and loan associations, mutual savings banks, cooperative banks, and credit unions on deposits or accounts from which you could withdraw your money. (Report these as interest.)

For more information and special rules for stock dividends, liquidations, stock rights, conversions and redemptions, get **Publication 550.**

Nontaxable Distributions.—Generally a nontaxable distribution is a return of capital. You must reduce your investment cost (or other basis) by the amount of nontaxable distributions received. Include nontaxable distributions in line 10d.

Capital Gain Distributions.—All capital gain distributions should be reported on Schedule D (Form 1040) and also included in line 10d. However, if you received capital gain distributions and do not need Schedule D to raport any other gains or losses or to figure tha alternative tax, do not fill in that schedule. Instead, show 50 percent of your capital gain distributions on line 34 of Form 1040.

If you received a nontaxable distribution that was more than the cost (or other basis) of your stock, the difference is a capital gain distribution, even though the paying corporation called it a nontaxable distribution.

Line 10a—Dividends.—Show on this line all gross dividends received except nontaxable distributions and capital gain distributions.

Note: Enter on line 10d dividends reported on line 10a plus all nontaxable distributions and all capital gain distributions.

Line 10b—Exclusion.—You can exclude up to $100 of dividends received from qualifying domestic corporations.

If you file a joint return and both husband and wife had dividend income, each can exclude up to $100 of dividends received from qualifying corporations. However, neither can use any part of the $100 exclusion not used by the other. For example, if a husband had $300 in dividends, and his wife had $20, only $120 can be excluded.

Taxable dividends from the following corporations do not qualify for the dividends exclusion:

(a) Foreign corporations, including your share from a controlled foreign corporation.

(b) So-called exempt organizations (charitable, fraternal, etc.) and exempt farmers' cooperative organizations.

(c) Regulated investment companies, unless they have told you how much of such dividends qualify for the exclusion.

(d) Real estate investment trusts.

(e) Corporations receiving 80 percent or more of their income from U.S. possessions and 50 percent or more of their income from the active conduct of a business there.

(f) Actual distributions from the current earnings and profits of an electing small business corporation. However, for this purpose, current earnings and profits are limited to taxable income for the year.

Line 11—Interest Income.—Report any interest you received or which was credited to your account so you could withdraw it. (It did not have to be entered in your passbook.)

659—16—83194-1

Include Interest on the Following.—

Accounts with banks, credit unions, savings and loan associations, etc.

Tax refunds.

Notes and loans.

U.S. Savings bonds. The yearly increase in the value of a bond is interest. You can report it in either of the following ways:

(1) You can report the interest when you cash your bonds, or when the bonds reach final maturity and no longer earn interest.

(2) You can report the "yearly increase" in all bonds on your return each year. (You can change to this way of reporting at any time. But if you do so, you must report in the first year you use this method the entire increase in all bonds from the date they were issued. And then report the "yearly increase" each year afterwards.)

For more information, get **Publication 576,** Tax Information on United States Savings bonds.

Bonds and debentures. Also arbitrage bonds issued after October 9, 1969, by State and local governments. But do not report interest on other State and municipal bonds and securities. If you held corporate bonds or other notes of debt originally issued at a discount after May 27, 1969, you have to include a certain portion of the discount for the part of the year you held the bond or note.

For more information about interest income, how to figure original issue bond discount, and rules for interest on industrial development bonds, get **Publication 550,** Tax Information on Investment Income and Expenses.

Should You Use the Standard Deduction (line 45(b)) or Itemize Your Deductions (line 45(a))?

You must decide whether to take the standard deduction or to itemize your actual deductions for charitable contributions, medical expenses, interest, taxes, etc. Because the standard deduction varies at different income levels, it will generally be helpful to follow these guidelines based on your adjusted gross income (line 15). (If married and filing separately, use one-half of the following dollar amounts. And be sure to use only the total of your own deductions.)

If line 15 is less than $8,667 and your itemized deductions are less than $1,300, find your tax in Tax Tables 1–12 which give you the benefit of the standard deduction. If your deductions exceed $1,300, itemize them.

If line 15 is between $8,667 and $13,333 and your itemized deductions are over 15 percent of line 15, itemize them. If under 15 percent of line 15, take the standard deduction.

If line 15 is over $13,333 and your itemized deductions are over $2,000, itemize them. If they are $2,000 or less, take the standard deduction.

If you have income other than earned income and could be claimed as a dependent on your parent's return be sure to read the blocked instruction under "Tax—Credits—Payments" on this page.

Tax—Credits—Payments

If you check the block between lines 15 and 16, follow these instructions.

NOTE: *If you could be claimed as a dependent on your parent's return and line 15 includes income other than earned income (see next paragraph for definition of earned income) figure your tax by completing Part III of Form 1040. Do NOT use Tax Tables 1–12. An example of this is an unmarried full time student (or an unmarried person under 19 years of age) who has dividend or interest income on his own return and his parents are filing a return of their own.* **If you don't itemize your deductions substitute the following instruction for line 45(b):**

45(b) If you do not itemize deductions, enter the larger of:

1. 15% of that part of line 15 that is attributable to earned income but not more than $2,000 ($1,000 if married and filing separately), or
2. $1,300 ($650 if married and filing separately), but not more than your earned income included on line 15.

"Earned Income" means wages, salaries, professional fees, etc., for personal services rendered. It does not include compensation for your services that was a distribution of earnings and profits other than a reasonable allowance for your work for a corporation. If you were engaged in a business in which both personal services and capital were material income producing factors, consider as earned income for personal services rendered, an amount not in excess of 30% of your share of net profits of the business.

Line 16—Tax—

To Figure Your Tax If You Take the Standard Deduction and the Above Instruction Isn't Applicable

If line 15 is under $10,000, find your tax in Tax Tables 1–12. The standard deduction has been allowed in these tables. Also, the deduction for the exemptions you claimed has already been allowed in these tables. Enter the tax on line 16.*

If line 15 is $10,000 or more, fill in lines 44 through 48. (Your standard deduction goes on line 45.) Use Tax Rate Schedule X, Y, or Z to figure your tax. Enter the tax on line 16.*

To Figure Your Tax If You Itemize Deductions

Fill in Schedule A and enter your total deductions on line 45. Fill in lines 44, 46, 47, and 48. Use Tax Rate Schedule X, Y, or Z to figure your tax. Enter the tax on line 16.*

* Include in the amount on line 16 any partial tax computed under sections 668 and 669 that is attributable to an accumulation distribution. (See Form 4970.)

Other Ways to Figure Your Tax

Schedule G, Income Averaging.—It may pay you to use the "averaging method" if after subtracting $3,000 from your 1973 taxable income (line 48), the balance is over 30 percent of the total of your taxable income for the last four years (1969 through 1972). If you use this method, fill in Schedule G. For more information, get **Publication 506,** Computing Your Tax Under the Income Averaging Method.

Schedule D, Alternative Tax.—It may pay you to use the alternative tax if you have a net long-term capital gain, or if your net long-term capital gain was more than your net short-term capital loss. See Alternative Tax Computation on Schedule D. If you use this method, fill in Schedule D.

Form 4726, Maximum Tax on Earned Income.—The tax on earned taxable income is limited to a maximum rate of 50 percent for 1973. **Get Form 4726** for more information if your earned taxable income was over:

$38,000 and you are single,
$52,000 and you are married filing jointly or are a widow(er) with dependent child, or
$38,000 and you claim unmarried head of household status.

Form 4972, Special Averaging Methods.—It may pay you to use the 5-year Special Averaging Method for Self-employed Individuals or the 7-year Special Averaging Method for Common-law Employees if you received a total distribution from a qualified employees' trust or a qualified annuity plan. For more information, get Instructions for Form 4972.

Line 21a—Federal Income Tax Withheld.—Enter the total income tax withheld as shown on your Forms W–2 or W–2P.

Line 21b—Estimated Tax Payments.—Fill in on this line any payments you made on your estimated Federal income tax for 1973.

If you and your spouse filed a joint declaration of estimated tax for 1973 but decide to file separate income tax returns for 1973, either of you can claim all the estimated tax paid. Or, you can each claim part in whatever amounts you agree to. Be sure to show the social security numbers of both on both returns.

If you and your spouse filed separate estimated tax declarations for 1973 but decide to file a joint income tax return for 1973, enter on this line the total of the amounts paid on your separate declarations. Be sure to show both social security numbers on your joint return.

Follow the above instructions even if your spouse died.

Line 21c—Extension of Time to File 1973 Return.—If you filed an application to request an automatic 2-month extension of time to file Form 1040 for 1973, enter the amount paid with Form 4868 on this line.

Line 22—Special Note for Beneficiary of a Trust.—If you have a tax credit because of the "throwback" rule, include the credit in your total for line 22 (see Form 4970). On the dotted line to the left of the line 22 entry space, write "Throwback credit," and show the amount.

Line 23—Balance Due.—In most cases, people who have income tax withheld from their wages will find that the amount withheld will be fairly close to their tax for the year. Sometimes it is not, and this is more likely to happen if both you and your spouse worked.

If you find that you need more income tax withheld for 1974, you can file a new allowance certificate, Form W–4, with your employer and claim fewer allowances. Or you can ask him to withhold more money. If you prefer, you can file a Declaration of Estimated Tax on Form 1040–ES and make installment payments. For more information, get **Publication 505,** Tax Withholding and Declaration of Estimated Tax.

Penalty for Not Paying Tax.—Generally, a penalty is charged if the balance due on Form 1040 is not paid by the date the return is due, which is April 15 this year. The penalty is one-half percent of the unpaid amount for each month or part of a month it remains unpaid—up to 25 percent of the unpaid amount. This penalty cannot be deducted on your return, and it is in addition to the interest charge of 6 percent a year on the unpaid amount.

Penalty for Not Paying Enough Tax During the Year.—Add lines 58, 59, 60 and 63. Subtract this total from line 20 and call the difference total A. Add lines 63, 21c (unless extension is filed and tax is paid before January 31, 1974) and 64. Subtract this total from line 22 and call the difference total B.

If total B is less than 80 percent (66⅔ percent for farmers and fishermen) of total A, you may owe a penalty unless you meet one or more of the exceptions explained on Form 2210 (Form 2210F for farmers and fishermen). Attach this form or a statement to your return to show how you figured the penalty or which exceptions you believe you meet.

If you owe a penalty, check the box between lines 23 and 24, and show the amount in the bottom margin on page 1 of Form 1040 and write "Penalty—estimated tax." If you owe tax on line 23, include the penalty amount in with your total. Or, if you are due a refund, subtract the penalty amount from overpayment on line 24.

Line 26—Overpayments Credited to 1974 Estimated Tax.—We will apply amounts you want credited to estimated tax to the account under your Social security number, unless you attach a request to apply it to your spouse's account. The request should include the social security number of your spouse if it is not shown on the return.

Declaration of Estimated Tax

Citizens of the United States or residents of the United States, Puerto Rico, Virgin Islands, Guam and American Samoa shall make a declaration of estimated tax if their total estimated tax is $100 or more and they:

(1) Can reasonably expect to receive more than $500 from sources other than wages subject to withholding; or,

(2) Can reasonably expect gross income to exceed—

(a) $20,000 for a single individual, a head of a household, or a widow or widower entitled to the special tax rates;

(b) $20,000 for a married individual entitled to file a joint declaration with spouse, but only if the spouse has not received wages for the taxable year;

(c) $20,000 for a married individual living apart from his spouse as described on page 4.

(d) $10,000 for a married individual entitled to file a joint declaration with spouse, but only if both spouses received wages for the taxable year; or,

(e) $5,000 for a married individual not entitled to file a joint declaration with his spouse.

See Form 1040–ES for details.

Instructions for Page 2 of Form 1040

PART I.—Income Other Than Wages, Dividends, and Interest

Miscellaneous Income

Line 33—Fully Taxable Pensions and Annuities (Not Reported on Schedule E).—See Instructions for Schedule E for information on pensions and annuities.

Use this line to report:

(1) Pensions and annuities if you paid no part of their cost.

(2) Military retirement pay from Form W–2.

(3) Disability retirement income if you are below the normal retirement age.

(4) Amounts received as annuity under the special rule (see Instructions for Schedule E) if you recovered your entire cost before January 1, 1973.

(5) Taxable ordinary income from retirement plan or profit-sharing distributions.

Line 34—50% of Capital Gain Distributions (Not Reported on Schedule D).—See instructions for Capital Gain Distributions on page 6.

Line 35—State Income Tax Refunds.—Show only that part of refund of State income tax attributable to itemized deductions taken in a prior year that resulted in a Federal tax benefit.

Line 36—Alimony Received.—Show amounts you received as alimony or separate maintenance.

Line 37—Other.—Use this line to report and tell the source of any income you cannot find a place for on your return or other schedules. Include prizes, awards, amounts you recovered for bad debts, or other items that reduced your tax in a prior year.

Net Operating Loss.—If you lost money on a business or trade in 1973, you can subtract the loss from your 1973 income. (The loss can also be from a personal casualty or theft loss or from selling or disposing of real or depreciable property used in your trade or business.)

If your losses were more than your income, the difference may result in a "net operating loss." Generally, you can use it to reduce your income for the three years before 1973 and the five years after. This means you have to carry the loss back to 1970 and then bring any remaining loss forward to 1971, 1972, and 1974 through 1978. If you are due a refund from the "carryback," you may use **Form 1045** to get a quick refund.

If you had a loss in a prior year to carry forward to 1973, enter it as a "minus" figure on line 37. Attach a separate sheet showing how you figured the amount.

PART II.—Adjustments to Income

Line 39—Sick Pay Exclusion.—You may be able to take an exclusion for pay you received while you were absent from work because of injury or sickness, if you were covered by a sick pay plan paid for by your employer. If both you and your employer paid for the plan, you can exclude all the benefits you received from the part you paid. But there is a limit on excluding benefits you received from the part your employer paid.

A disability pension may also qualify for the sick pay exclusion.

For more information and how to figure your exclusion, get **Form 2440** and **Publication 522,** Adjustments to Income for Sick Pay.

Show the amount of your sick pay exclusion on line 39 shown on Forms W–2 and W–2P. If not shown on Form W–2 or W–2P, attach Form 2440 (or a statement showing how you figured the exclusion, when you were absent, regular weekly rate of pay, and whether you were in the hospital).

Line 40—Moving Expenses.—Employees, including new employees, and self-employed persons, including partners, can deduct certain moving expenses. The move had to be in connection with your job or business. The expenses you can deduct include the cost of moving your family, furniture and other household goods, and personal belongings. You can also deduct meals and lodging while traveling to your new home.

Up to a certain amount, you can also deduct for:

(1) Travel, meals, and lodging for house-hunting trips you made after getting the job and before you moved.

(2) Meals and lodging while in temporary quarters in the general area of your new place of work, for up to 30 days after you got the job.

(3) Expenses for selling, buying, or leasing your new or old home.

For more information, get **Form 3903** and **Publication 521,** Tax Information on Moving Expenses.

If you find you can deduct moving expenses, fill in Form 3903. Also, report on line 9 of Form 1040 all amounts you were paid or repaid for moving expenses. (If you were employed, these amounts should be included on Form 4782 and in the total of wages, tips and other compensation on the Form W–2 your employer gave you.) Then show your allowable expenses on line 40.

Line 41—Employee Business Expenses (and Employer Payments).—

Deductible Expenses and Excess Payments.—You can deduct the expenses listed below that were not paid by your employer. If you paid part of an expense and your employer paid part, you can deduct the amount you paid. If your employer paid you more than you spent, report the difference as income. (See instructions for Reporting Deductions and Excess Payments on page 9.)

(1) *Travel and Transportation.*—You can deduct bus, taxi, plane, or train fares or the cost of using your car in your work.

(2) *Meals and Lodging.*—You can deduct these if you were temporarily away on business at least overnight from the general area of your main place of work. You cannot deduct the cost of meals on daily trips where you did not need to sleep or rest.

(3) *Outside Salesman.*—In addition to the above, an outside salesman can generally deduct other expenses necessary in sales work. For example, selling expenses, stationery, and postage. An outside salesman is one who does all his selling away from his employer's place of business. If your main duties are service and delivery, such as a milk driver-salesman, you are not considered an outside salesman.

(4) *Other Business Expenses.*—If you itemize deductions on Schedule A, you can also deduct other business expenses under the heading "Miscellaneous deductions." Examples of these expenses are dues to unions and professional organizations.

and the cost of tools, materials, etc., that your employer did not pay for.

If you claim a deduction for business expenses, attach **Form 2106** or a statement showing the following:

(1) The total of all amounts received from or charged to your employer and nature of your occupation.

(2) The amount of your business expenses broken down into broad subjects.

(3) The number of days away from home on business.

Even if you do not claim a deduction for your business expenses, you must attach the above information to your return unless you were required to, and did make a satisfactory accounting of them to your employer.

You are considered to have made a satisfactory accounting if:

(1) You received either a daily allowance of no more than $36 instead of actual living expenses or the maximum per diem rate authorized to be paid by the Federal Government in the locality in which the travel is performed, or a mileage allowance of no more than 15 cents a mile.

(2) Your expenses were the type necessary to carry out your employer's trade or business, and you gave him proof of the time, place, and business reason of the travel.

If you use your own car for business reasons, you can deduct what it cost you for business use. Instead of figuring your actual expenses such as gas, oil, repairs, license tags, insurance, and depreciation, you can take a fixed mileage rate.

This is figured at 12 cents a mile for the first 15,000 miles and 9 cents for each mile over 15,000. Add to this amount your parking fees and tolls.

You can change methods of figuring your cost from year to year. But you cannot change to the fixed mileage rate if you claimed depreciation and did not use the straight line method, or if you claimed additional first-year depreciation.

For more information, get **Publication 463**, Travel, Entertainment, and Gift Expenses.

Reporting Deductions and Excess Payments.—Report expenses and payments as explained below.

(1) If your employer paid you more than you spent, report the difference on line 37, under "Other."

(2) If you spent more than your employer paid you for travel and transportation, meals and lodging, and outside salesman expenses, you can deduct the difference on line 41. If you itemize deductions and had other business expenses your employer did not pay for, you can deduct them under "Miscellaneous deductions" on Schedule A.

(3) If your expenses equaled the payments you received (or were more than the payments but you do not want to claim a deduction for the difference), write on the bottom margin of page 2, Form 1040, "Employer payments were not more than my business expenses."

Note: *If your Form W-2 includes amounts your employer paid you for business expenses, attach Form 2106 or a statement. (See instructions for Deductible Expenses and Excess Payments.) Include your total expense on line 41.*

Line 42—Payments as a Self-Employed Person to a Retirement Plan.—If you are self-employed and paid into a qualified pension, profit-sharing, annuity or bond purchase plan, get **Form 4848.**

PART IV.—Credits

Line 49—Retirement Income Credit.—See instructions for Schedule R.

Line 50.—Investment Credit.—For exceptions and conditions under which you can take an investment credit, get **Form 3468.**

Line 51—Foreign Tax Credit.—You can claim credit for income tax payments to a foreign country or U.S. possession only if you itemize deductions. For more information, get **Form 1116.**

Line 52—Credit for Contributions to Candidates for Public Office.—You may claim a tax credit on line 52, Form 1040 or an itemized deduction on line 33, Schedule A (Form 1040), **but you cannot claim both,** for political contributions paid.

If you elect to claim a credit on line 52, Form 1040, the amount of the credit is one half of the political contributions paid, but not more than $12.50 ($25 if married and filing a joint return). This credit may not exceed the tax on lines 16, 56, 57, and 58 less the amount of credits on lines 49, 50, and 51. Make a side calculation before you enter the credit on line 52.

Definitions

"Political contributions" means a contribution or gift of money to—

(1) A person who is a candidate for nomination or election to any Federal, State, or local elective public office in any primary, general, or special election, for his use to further his candidacy.

(2) Any group organized and operated exclusively to support the nomination or election of one or more candidates seeking Federal, State, or local public office, for use by that group to further its purposes.

(3) The national committee of a national political party.

(4) The State committee of a national political party as designated by the State committee of that party.

(5) A local committee of a national political party as designated by the State committee of that party.

"Candidate" means a person who has publicly announced candidacy for nomination or election to Federal, State, or local elective public office and meets the legal qualifications to hold the office.

"National political party" means:

(1) A political party presenting candidates or electors for President or Vice President on the official ballot of ten or more States during an election year.

(2) In the case of contributions made during any other taxable year of the taxpayer, a political party that met the qualifications described in the preceding paragraph (1) in the last Presidential election.

"State" means the States and the District of Columbia.

"Local" means a political subdivision or the total of subdivisions of a State or part of it.

Line 53—Credit for Wages Paid or Incurred in Work Incentive (WIN) Program.—Employers may claim a credit of 20% of the salaries and wages paid or incurred to employees hired under a Work Incentive (WIN) Program. The credit is allowed for the salaries and wages paid or incurred for the first 12 months of employment. See Form 4874.

PART V.—Other Taxes

Line 55—Self-employment Tax.—Enter amount shown on line 20, Schedule SE.

Line 56—Tax from Recomputing Prior Year Investment Credit.—Enter the difference between the credit taken in a prior year and the credit you refigured due to disposing of the property early. Attach **Form 4255.**

Line 57—Tax from Recomputing a Prior Year Work Incentive (WIN) Credit.—If a WIN employee is dismissed before the end of the first 12 months of employment or during the following 12 calendar months, you must repay (with certain exceptions) any tax credit previously taken on the salaries and wages paid or incurred to that employee. (See Form 4874.)

The tax from recomputing a prior year work incentive credit may not be offset against the current year's work incentive credit.

Line 58—Minimum Tax.—If you have items of tax preference (accelerated depreciation, stock options, long-term capital gains, etc.) of more than $15,000, **attach Form 4625** even if there is no minimum tax due.

Lines 59 and 60—Tax on Tip Income.—If you received tips you failed to report to your employer, or if your wages were not enough for him to withhold social security or railroad retirement tax, you must pay these taxes with your Form 1040.

The Form W-2 your employer gives you will show any social security tax you owe on tips you reported to him. Enter that amount on line 60.

For tips you did not report but must pay social security tax on, attach **Form 4137.** Enter the tax on line 59. For tips you have to pay railroad retirement tax on, contact your nearest Railroad Retirement Board office for information. Include the tax on line 59. On the dotted line to the left, write "RR tax on tips."

Be sure all your tips are included as income on line 9, Form 1040.

PART VI.—Other Payments

Line 62—Excess Social Security Tax Withheld—More Than One Employer.—If you had more than one employer in 1973 and together they paid you more than $10,800 in wages, too much social security (FICA) tax may have been taken out of your wages. If too much was withheld, you can take credit for it against your income tax. Follow the steps below to figure your credit. If you are filing a joint return, you have to figure this separately for you and your spouse.

Step 1. (a) Add all social security (FICA) tax withheld by employers from your wages as shown on all Forms W-2 for 1973. **Caution:** Do not include more than $631.80 for any employer. (See note that follows.) Enter the total here	$
(b) Add all uncollected tax on tips, if any, as shown on all Forms W-2 for 1973. Enter the total here . .	$
Step 2. Add (a) and (b)	$
Step 3. Subtract	$631.80
Step 4. Enter this amount on Form 1040, line 62	$

Note: *If any employer took out more than $631.80 for social security tax, ask him to refund the excess amount owed you. You cannot take credit for it on your return.*

Line 63—Credit for Federal Taxes on Special Fuels, Nonhighway Gasoline and Lubricating Oil.—Enter on this line any tax credit you can take for:

(1) Gasoline used—

(a) on a farm for farming use.

(b) in vehicles and machines used off the highway, such as in boats and, generally, in commercial aircraft.

(c) in vehicles furnishing certain public transportation by land.

(2) Lubricating oil used for any purpose other than in a highway motor vehicle.

(3) Special fuels used—

(a) on a farm for farming use.

(b) in vehicles furnishing certain public transportation by land.

(c) generally, in commercial aviation or under other conditions not subject to tax.

Attach **Form 4136.** For more information, get **Publication 225,** Farmer's Tax Guide, or **Publication 378,** Federal Fuel Tax Credit or Refund for Nonhighway and Transit Users.

Line 64—Credit for Taxes Paid by Regulated Investment Companies.—Enter the credit on this line. Attach **Copy B of Form 2439.**

Excess Hospital Insurance Benefits Tax (Railroad Employees and Railroad Employee Representatives).—You may have paid too much hospital insurance tax if you received income on which you paid railroad retirement tax and wages on which you paid social security (FICA) tax. If the total of the income and wages was more than $10,800, figure your credit on **Form 4469.**

Do You Have an Account in a Foreign Country?—Read the question after line 65 and check the "Yes" or "No" block. If you checked the "Yes" block, attach Form 4683. Check "Yes", if you own more than 50 percent of the stock in any corporation that owns one or more foreign bank accounts.

Instructions for Schedule C (Form 1040)

If you owned a business or practiced a profession, complete Schedule C. Then enter your net profit or loss on Form 1040, line 28. If you had more than one business, or if you and your spouse had separate businesses, complete a Schedule C for each business. Farmers should use Schedule F.

You have to pay the social security self-employment tax on income from any trade or business, unless specifically excluded. See Schedule SE. Generally, if you filed Form 4029 or Form 4361, do not file Schedule SE. Instead write "Exempt—Form 4029" or "Exempt—Form 4361" on line 55 of Form 1040.

If some of your expenses are part business and part personal, you can deduct the business part but not the personal part. For instance if only half of a businessman's car usage is for business, he can deduct only half of the cost of operating the car.

Sales, exchanges, or involuntary conversions of certain trade or business property are to be reported on Form 4797, Supplemental Schedule of Gains and Losses.

Accounting Methods and Records.—On your return you must use the "cash method" of reporting unless you kept books of account. If you kept such books, you can use either the "cash method," "accrual me'hod," or other method, such as "completed contract" or "percentage of completion." You can use any of these methods or a combination of them, provided the method or methods used properly reflect your income.

"Cash method" means you generally show all items of taxable income actually or constructively received during the year (whether in cash, property, or services) and those amounts actually paid during the year for deductible expenses. Income is "constructively" received when it is credited to your account or set aside for you to draw on at any time.

"Accrual method" means you report income when earned, even if not received, and deduct expenses when incurred, even if not paid during the tax year.

Item A—Principal Business Activity and Product.—Give the one business activity that accounted for the largest percentage of gross income included in Schedule C, page 1, line 1. State the broad field of business activity as well as the product or service. For example, "wholesale—drugs," "retail—apparel."

Item C—Employer Identification Number.—An employer identification number is not needed unless you were required to file an excise, alcohol, tobacco, firearms, or employment tax return (other than on Form 942 or Form CT–2).

Item D—Business Address.—Do not use your home address as a business address unless you actually conducted the business from your home. Show street address rather than box number.

Item F—Information Returns.—You may be required to file information returns for wages paid to employees, certain payments of fees and other nonemployee compensation, interest, rents, royalties, annuities and pensions. For more detailed information, see instructions for Forms W–3 and 1096.

430—10—83104-1

Income

Line 1—Gross receipts or gross sales.—Enter gross receipts or sales from your trade or business, except those items required to be reported in line 4. (See instructions for line 4.)

Returns and allowances.—Enter such items as returned sales, rebates, and allowances from the sale price or service charge.

Installment Sales.—If you use the installment method of reporting income from sales, attach to your return a schedule showing separately for 1973 and the three preceding years:

(1) gross sales,
(2) cost of goods sold,
(3) gross profit,
(4) percentage of gross profits to gross sales,
(5) amounts collected, and
(6) gross profits on amounts collected.

Line 2—Cost of goods sold, Schedule C–1.—If you were engaged in a trade or business in which the production, purchase, or sale of merchandise was an income producing factor, inventories of merchandise must be taken into account at the beginning and end of your tax year.

The inventories can be valued at:

(1) cost,
(2) cost or market, whichever is lower, or
(3) any other method approved by the Commissioner.

You must continue to use the same valuation method you adopted for the first year you took inventory unless you get permission to change your method by applying to the Commissioner of Internal Revenue, Washington, D.C. 20224. Use Form 3115 to apply for permission to change your method of valuing inventories. It must be filed with the Commissioner within 180 days after the beginning of the tax year in which you want to use the new method.

Cost of Operations (Where Inventories are Not an Income-determining Factor).—If the amount entered on line 2 includes an amount applicable to cost of operations, complete appropriate lines of Schedule C-1.

Line 4—Other Income.—Include on line 4 finance reserve income, sales of scrap, amounts recovered from bad deuts, and interest, as well as other kinds of miscellaneous income from your trade or business.

Deductions

Note: That portion of payments willfully made in excess of Stabilization Guidelines are not deductible as a business expense under section 162(c)(2). (Revenue Ruling 72–236, 1972–1, C B. 41.)

Line 6—Depreciation.—You can deduct a reasonable allowance for the exhaustion, wear and tear, and obsolescence of property used in a trade or business, or property held for the production of income. The allowance is not allowed for stock in trade, inventories, land, and personal assets. See Form 4562 for information on depreciation methods, limitations and special rules.

Class Life (ADR) System and Guideline Class Life System.—If you figure depreciation by using the Class Life (ADR) System for assets put in service after December 31, 1970, or the Guideline Class Life System for assets put in service before January 1, 1971, you must file Form 4832 (Class Life (ADR) System) or Form 5006 (Guideline Class Life System). For more information, get **Publication 534**, Tax Information on Depreciation.

Line 9—Repairs.—You can deduct the cost of incidental repairs, including labor (but not the value of your own labor), supplies, and other items, that do not add to the value or appreciably prolong the life of the property. Amounts spent to restore or replace property are not deductible. They are chargeable to capital accounts or to depreciation reserve, depending on how depreciation is charged on your books. Include on line 9 the total amount of repairs from Form 4832.

Line 14—Amortization.—For the election to amortize expenditures for pollution control facilities, research or experimentation, a trademark or trade name, railroad rolling stock, railroad grading and tunnel bores, certain coal mine safety equipment, and on-the-job training and child care facilities, see Code sections 169, 174, 177, 184, 185, 187, and 188, respectively.

Line 15(a)—Retirement Plans, etc.—Enter the amount being claimed as a deduction for contributions to a pension, profit-sharing, or annuity plan.

Note: Every employer who has adopted a pension, profit-sharing, or other funded deferred compensation plan, regardless of whether or not the plan is qualified under the Internal Revenue Code or whether a deduction is claimed for the current taxable year, must file Form 4848 for all plans adopted. In general, Form 4848 is to be filed on or before the 15th day of the 5th month following the close of the taxable year. If the plan includes you as a self-employed person, enter contributions made as an employer on your behalf (but not voluntary contributions you made as an employee) on Form 1040, line 42, instead of on line 15(a) of Schedule C. (See Form 4848.)

Line 15(b)—Employee benefit program.—Enter the amount of your contributions to employee benefit programs that are not an incidental part of a pension or profit sharing plan included on line 15(a). Contributions to employee benefit programs that are to be reported on this line include insurance, health, and welfare programs.

Line 16—Interest on Business Indebtedness.—Do not include in line 16, interest that your trade or business paid or accrued on debts incurred to purchase or carry property held for investment. (See Code section 163(d)). You should claim this interest on investment debts on Schedule A (Form 1040). For further information, see Schedule A (Form 1040) instructions.

Line 17—Bad Debts Arising from Sales or Services.—Include debts, or portions of them arising from sales or professional services that were included in income and definitely known to be worthless; or a reasonable amount that was added during the tax year to a reserve for bad debts. A debt which is deducted as bad and which reduces your tax must, if later collected, be included as income for the year in which collected.

Line 18—Depletion.—If a deduction is claimed on account of timber depletion, attach Form T to your return.

Line 19—Other Business Expenses.—Include all ordinary and necessary business expenses. Do not include cost of business equipment or furniture, amounts spent for replacements or permanent improvements to property, or personal living and family expenses.

Automobile Expenses, Special Rule.—See page 9 of Form 1040 instructions for optional method of figuring deductible automobile expenses.

Schedule C–4—Expense Account Information.—Expense account allowance means (a) amounts other than compensation, received as advances or reimbursements, and (b) amounts paid by or for you for expenses incurred by or for yourself or your employees, including all amounts charged through any type of credit card, for which a deduction is claimed in this schedule. This term does not include amounts paid for (a) the purchase of goods for resale or use in your business, and (b) incidental expenses, such as the purchase of office supplies or for local transportation in connection with an errand. You should keep records as proof of amounts spent for entertainment.

[illegible]

Instructions for Schedule F (Form 1040)

Employer Identification Number

An employer identification number is not needed unless you were required to file an excise, alcohol, tobacco, firearms, or employment tax return (other than on Form 942 or Form CT–2).

A. Cash Receipts and Disbursements Method of Reporting

Include the following in income:

(1) Profits received from the sale of livestock and other items bought for resale.

(2) Cash and the value of merchandise or other property received from the sale of livestock and produce raised during 1973 or earlier years.

(3) Other farm income.

Your expenses are the amounts you paid during 1973, plus deductions such as depreciation.

You can elect to report crop insurance proceeds in income in the tax year following the tax year of destruction or damage if you can establish that it is your practice to report income from such crops in a following tax year. For more information, contact any Internal Revenue Service office, or get **Publication 225**, Farmer's Tax Guide.

B. Accrual Method of Reporting

The gross profits are figured as indicated in the summary of income and deductions on page 2 of Schedule F. Farm expenses are the actual expenses incurred during 1973, whether you paid them or not. You can value inventories according to the "farm-price method," which provides for the valuation of inventories at market price less direct cost of disposition, or you can use other methods. Farmers raising livestock can value their inventories of animals according to either the "farm-price method" or the "unit-livestock-price method."

C. Income

Generally, you should report all farm income in Schedule F. However, if you received rental income based on farm production or if you received crop shares based on the renting of all or part of your crop land on a crop share basis, and you did not materially participate in operating the farm, report such income on Form 4835, Farm Rental Income and Expense (such income is not subject to self-employment tax) and Schedule E. If you materially participated in the operation of a farm, the rental income you received is subject to self employment tax and should be reported in Schedule F. Under both the cash and the accrual methods of reporting, you should report crop share rentals received in the year in which you convert them to money or its equivalent.

Report sales, exchanges, or involuntary conversions of certain trade or business property on Form 4797, Supplemental Schedule of Gains and Losses.

Anything of value received instead of cash, such as groceries in exchange for produce, must be treated as income to the extent of its market value. The value of farm produce that you and your family used need not be reported as income, but expenses incurred in raising such produce must not be claimed as deductions. Recoveries from insurance on growing crops should be included. ("Cash method" taxpayers, see item A.)

Cooperative Allocations, Dividends and Advances

Also include in farm income: (1) per-unit retain allocations received from cooperatives in money and qualified per-unit retain certificates (to the extent of stated dollar amounts), and (2) patronage dividends received from cooperatives in money and qualified written notices of allocation (to the extent of stated dollar amount).

Patronage dividends received in property other than written notices of allocation are includible in farm income to the extent of fair market value.

Include in farm income, line 21, Schedule F, nonpatronage distributions received from farmers' cooperative exempt from tax under section 521.

Patronage dividends are excludable from your gross income if directly attributable to: (1) the purchase of personal, living, or family items; or (2) the purchase of capital assets, or depreciable property used in your business, but only where the basis of the items purchased is adjusted downward by the amount of the dividends excluded from income.

Cash advances received from marketing cooperatives you do business with are includible in farm income.

> See **Publication 225** for detailed instructions on how and when to report the receipt and redemption of nonqualified certificates and nonqualified written notices, and the receipt of patronage dividends received on purchase of assets and nonbusiness purchases.

Federal Gasoline Tax Credit

If you use the "cash method," enter in Part I, line 24 any Federal gasoline tax claimed as a credit on Form 1040 for 1972. If you use the "accrual method," enter in Part V, line 65 any Federal gasoline tax you claim as a credit on Form 1040 for 1973.

Agricultural Program Payments

In Cash.—Enter the total amount of price support payments, diversion payments, and cost share payments received in cash (sight drafts).

In Materials and Services.—If you received benefits in the form of materials, such as fertilizer or lime, or in the form of services, such as grading or the construction of dams, enter the total amount paid by the Department of Agriculture to the vendor or contractor.

Commodity Credit Corporation Loans

If commodities are pledged as security for a loan from the Commodity Credit Corporation, income is not considered received until the commodities are delivered or forfeited to the Corporation, unless an election is made to include the loan in income when received. If you made this election or delivered or forfeited the pledged commodity, enter the amount received on this line. In the case of an election, attach to your return a statement showing details of the loan. You must continue to report similar loans as income until you receive permission from the Commissioner to change your method of accounting.

D. Expenses and Other Deductions

Note: That portion of payments willfully made in excess of Stabilization Guidelines are not deductible as a business expense under section 162(c)(2). (Revenue Ruling 72–236, 1972–1, C.B. 41.)

Hired Labor.—You can deduct amounts paid for farm labor. Do not deduct the value of your own labor or that of your family. Deduct only that part of the board which is purchased for hired labor. The value of products furnished by the farm and used in the board of hired labor is not deductible. Do not deduct amounts paid to those who did household work except to the extent their services are used in boarding and otherwise caring for farm laborers.

Repairs and Maintenance.—You can deduct amounts paid for repairs and maintenance of farm buildings (except your dwelling), farm machinery and equipment; and the cost of ordinary tools of short life or small cost, such as shovels, rakes, etc. Include in this deduction the total amount of repairs from Form 4832.

Rent of Farm, Part of Farm, or Pasture.—You can deduct rent paid in cash. If you are a tenant farmer paying rent to your landlord in the form of crops raised on the farm under a crop share agreement, you cannot deduct as rent the value of the crop, but you can deduct amounts paid in raising the crop.

Fertilizers, Lime, etc.—These can be either capitalized or deducted as an expense.

Taxes.—You can deduct State and local taxes. Do not deduct Federal income taxes; estate, inheritance, legacy, succession, and gift taxes; nor taxes assessed for any improvement or betterment. Do not deduct taxes on your dwelling or household property and other taxes not related to the business of farming.

Conservation Expenses.—You can deduct certain amounts spent (including any amount paid on an assessment levied by a soil or water conservation or drainage district to recover the amount the district spent) for soil or water conservation and the prevention of erosion on land you use.

The allowable deduction for any one year cannot exceed 25 percent of your gross income from farming (excluding certain gains from sales of assets such as farm machinery or from the disposition of land). But any excess can be carried over to the following years with the same limit applying to those years. See **Publication 225**.

Land Clearing.—You can deduct amounts spent for clearing land to make it suitable for farming. This deduction cannot be more than 25 percent of taxable income from farming, or $5,000, whichever is less.

Retirement Plans, etc.

Line 48.—Enter the amount you are claiming as a deduction for contributions to a pension, profit-sharing, or annuity plan.

Note: *Every employer who has adopted a pension, profit-sharing, or other funded deferred compensation plan, regardless of whether or not the plan is qualified under the Internal Revenue Code or whether a deduction is claimed for the current tax year, must file Form 4848 for all plans adopted. In general, Form 4848 must be filed on or before the 15th day of the 5th month following the close of the tax year. If the plan includes you as a self-employed person, enter contributions made as an employer on your behalf (but not voluntary contributions you made as an employee) on Form 1040, line 42, instead of on line 48 of Schedule F. (See Form 4848.)*

Line 49.—Enter the amount of your contributions to employee benefit programs that are not an incidental part of a pension or profit-sharing plan included on line 48. Contributions to employee benefit programs that are to be reported on this line include insurance, health, and welfare programs.

Automobile Expenses, Special Rule.—See page 9 of Form 1040 instructions for optional method of figuring deductible automobile expenses.

Other Farm Expenses.—Include such items as advertising, stationery, stamps, account books, other office supplies, etc.

Losses of property included in your inventory are taken care of by the reduced amount of the inventory at the end of the year. The loss of a prospective crop by frost, storm, flood, or fire is not deductible. When using the cash method, the value of animals you raised that died is not deductible. For animals you bought that died, the cost less depreciation allowed or allowable is deductible if not compensated by insurance or otherwise. Do not deduct personal losses.

Planting and Developing Citrus and Almond Groves.—Charge to capital account expenses for the planting, cultivation, maintenance, or development of any citrus and almond grove (or part of such grove), incurred before the close of the fourth tax year beginning with the tax year in which trees were planted. (See **Publication 225.**)

Depreciation.—You can deduct an allowance for the depreciation of buildings, improvements, machinery, or other farm equipment of a permanent nature. Similar assets may be grouped together as one item for reporting purposes in the depreciation schedule in Schedule F. In figuring depreciation, do not include the value of land. Do not claim depreciation on livestock or any other property included in your inventory. You can claim depreciation on livestock not included in your inventory of livestock bought or raised for sale if you acquired them for work, breeding, or dairy purposes.

Class Life (ADR) System and Guideline Class Life System.—If you figure depreciation by using the Class Life (ADR) System for assets put in service after December 31, 1970, or the Guideline Class Life System for assets put in service before January 1, 1971, you must file Form 4832 (Class Life (ADR) System) or Form 5006 (Guideline Class Life System). For more information, get **Instructions for Form 4832**, Form 5006, and **Publication 534**, Tax Information on Depreciation.

See instructions on the back of Form 4562 for more detailed information about methods of computing depreciation, other than the new depreciation rules mentioned above.

> Income from farming is subject to the self-employment tax. (See Schedule SE.) If you filed Form 4029, do not file Schedule SE. Instead, write "Exempt—Form 4029" on line 55, Form 1040.

Additional Information Available.—You can get **Publication 225**, Farmer's Tax Guide, free from your county agricultural agent or Internal Revenue Service office.

Farm Rental Income and Expenses

(Crop and Livestock Shares Received by Nonparticipating Landowner (or Sub-lessor))
(Income not subject to self-employment tax) ► Attach to Form 1040.

1973

Name(s) as shown on Form 1040 — Social security number

Business name and address

Location of farm(s) and number of acres in each farm

If you filed Form 943, enter employer identification number here

Purpose.—This form is designed to report farm rental income based on crops or livestock produced by the tenant, where the landowner (or sub-lessor) does not materially participate in the operation or management of the farm.

Under both the cash and the accrual methods of reporting, you should report livestock or crop share rentals received in the year in which you convert them to money or its equivalent. Reg. 1.61—4(a) and (b).

Note: (1) Landowners (or sub-lessors) must not use this form to report cash rent received for pasture, or farm land, where the amount is based on a flat charge. (Report directly on Schedule E, Form 1040.)

(2) If you report both farm rental income on line 22 of this form and cash rental income from farm property in Schedule E, Form 1040, you need not prorate the farm expenses attributable to this farm rental income. Instead, you may report the total farm rental expenses in Part II of this form.

(3) Tenants must not use this form to report farm income and expenses. (Individuals use Schedule F, Form 1040.)

(4) The instructions for Schedule F, Form 1040, are applicable for the income and deduction items in Part I and Part II.

Instructions for Form 1065 U.S. Partnership Return

The term "partnership" includes a limited partnership, syndicate, group, pool, joint venture, or other unincorporated organization, through or by means of which any business, financial operation, or venture is carried on, and which is not, within the meaning of the Internal Revenue Code, a corporation, trust, estate, or a sole proprietorship. The term "partner" means a member of a partnership.

(References are to the Internal Revenue Code)

General Instructions

NOTE: The employer's identification number must be entered in Item D on Page 1. If the partnership does not have an employer identification number an application Form SS-4 may be obtained from a Social Security Administration office or from IRS.

A. Who must file.—Every partnership (see general instruction K(1) for exceptions) engaged in trade or business, or having income from sources within the United States shall file Form 1065, whether or not its principal place of business is outside of the United States, and whether or not all of its members are nonresident aliens. If the return is filed for a syndicate, pool, joint venture, or similar group, a copy of the agreement and all amendments should be attached to the return, unless a copy has been previously filed.

Only one return is required to be filed for each partnership. Each copy of the partnership return that is furnished to an individual partner should be clearly identified as "duplicate copy."

B. Time and place for filing.—A resident partnership must file Form 1065 on or before the 15th day of the 4th month following the close of the taxable year. A foreign partnership in which all the partners are nonresident aliens must file the return on or before the 15th day of the 6th month following the close of the taxable year.

A partnership without a principal office or agency or principal place of business in the United States must file the return with the Internal Revenue Service Center, 11601 Roosevelt Boulevard, Philadelphia, Pennsylvania 19155.

C. Period to be covered by return.—The return shall be filed for the calendar year 1973 or other taxable year beginning in 1973. A partnership's taxable year shall be determined as though the partnership were a taxpayer.

D. Change in, or adoption of, accounting period.—A change by any partnership from one taxable year to another, or a new partnership's adoption of an initial taxable year, must meet the provisions of section 706(b). A change by a principal partner from one taxable year to another must meet the provisions of sections 706(b) and 442. A principal partner is one who has an interest of 5 percent or more in the partnership profits or capital.

For the taxable years of partnerships resulting from a merger or division of other partnerships, see sections 706(b) and 708(b)(2).

E. Signature.—The return must be signed by one partner. If a receiver, trustee in bankruptcy, or assignee is in control of the property or business of the organization, he must sign the return.

Any person(s), firm, or corporation who prepares a partnership return for compensation must also sign to verify the return. However, a verifying signature is not required if the return is prepared by a regular, full-time employee of the partnership, such as a clerk, secretary or bookkeeper. If a firm or corporation prepares the return, it should be signed in the name of the firm or corporation.

F. Penalties.—Severe penalties are provided by law for willful failure to make and file a return on time and for willful attempt to evade or defeat payment of any tax due.

G. Accounting methods.—Ordinary income shall be computed by the accounting method regularly used in maintaining the partnership's books and records. In all cases the method adopted should clearly reflect income. (See section 446.) Unless the law specifically permits, a taxpayer may not change the method of accounting used to report income in prior years (for income as a whole or for any material item) without first securing consent on Form 311S, Application for Change in Accounting Method.

Rounding off to whole-dollar amounts.—The money items on your return and accompanying schedules may be shown as whole-dollar amounts by eliminating any amount less than 50 cents and increasing any amount from 50 cents through 99 cents to the next higher dollar.

H. Items exempt from tax.—Items exempt from tax are listed in sections 101 through 122. For example:

(1) *Interest on governmental obligations.*—The interest on obligations of a State or a possession of the United States, or any of their political subdivisions or of the District of Columbia is exempt subject to certain exceptions described in section 103.

(2) *Proceeds of insurance policies.*—In general, the proceeds of life insurance policies paid to the partnership by reason of the death of a partner are exempt. If any part of the proceeds is held by the insurer under an agreement to pay interest, the interest is taxable.

(3) *Income from improvements by lessee.*—Income, other than rent, derived by a lessor of real property upon the termination of a lease, representing the value of such property attributable to buildings erected or other improvements made by the lessee, is excludable unless it represents a liquidation in kind of lease rentals.

I. Information returns.—Every partnership making payments in the course of its trade or business during the calendar year of interest (other than under the $10 rule), rents, commissions, or other fixed or determinable income aggregating $600 or more, shall file information returns.

For example, if the partnership makes payments of interest aggregating $10 or more on bank deposits, corporate bonds, stockholder's accounts, and savings and loan association accounts, it shall file Form 1099–INT.

Form 1096 must be used to summarize and transmit information returns to an Internal Revenue Service Center. For more information about filing information returns and exceptions, see the instructions for Form 1096.

J. Balance sheets.—The balance sheets of the partnership must be completed. These balance sheets, Schedule L, should agree with the books of account. Otherwise, any differences should be explained in an attached statement. Partnerships reporting to the Interstate Commerce Commission or to any national, State, municipal, or other public officer, may submit, instead of Schedule L, copies of their balance sheets prescribed by the Commission or State or municipal authorities, as of the beginning and end of the taxable year.

K. Elections.—(1) An unincorporated organization qualifying under section 761(a) as an investing partnership or as participating in the joint production, extraction, or use of property under an operating agreement, may elect to be excluded from treatment as a partnership under section 1.761 of the Regulations. The unincorporated organization may make the election in a statement attached to Form 1065 for the first year for which an election to be excluded is desired. For more detailed information, see section 1.761 of the Regulations.

(2) Generally, the partnership shall make the elections affecting the computation of taxable income derived from partnership operations. Examples of such elections are the method of accounting employed, methods of depreciation, etc. However, certain elections are made by a partner separately on his individual income tax return rather than by the partnership. These elections are made under: section 901, relating to foreign tax credit, section 617, relating to deduction and recapture of certain mining exploration expenditures, paid or incurred; section 57(c), relating to definition of net lease, and section 163(d), relating to limitation on interest on investment indebtedness.

(3) Information about elections affecting the basis of partnership property, the basis of partners' interests, and the distribution of property and other elections, may be found under the applicable sections of chapter 1, subchapter K of the Code and the Regulations.

L. Section 702(a) items.—Each partner is required by the Code to take into account separately his distributive share of certain specific items enumerated in the Code as follows: (1) gains and losses from sales and exchanges of capital assets held for not more than six months; (2) gains and losses from sales and exchanges of capital assets held for more than six months; (3) gains and losses from sales and exchanges of property described in section 1231; (4) charitable contributions; (5) qualifying dividends; (6) taxes described in section 901; (7) other items of income, gain, loss, deduction, or credit, to the extent provided by Regulations (see instructions for Schedule K); and (6) taxable income or loss (ordinary income) exclusive of items 1 through 7, above.

M. Distribution of unrealized receivables and inventory items.—If a partner receives a distribution of unrealized receivables or substantially appreciated inventory items in exchange for all or part of his interest in other partnership property (including money), the transaction is treated as a sale or exchange of such property between the distributee partner and the partnership. The gain realized by the partnership is treated as ordinary income. In computing the partners' distributive shares of such ordinary income, it shall be allocated only to partners other than the distributee and separately taken into account under section 702(a)(8). See section 751 and related Regulations.

N. Net operating loss deduction.—The benefit of the deduction for net operating losses provided by section 172 shall not be allowed to a partnership. In computing his own net operating loss or his own taxable income for any taxable year for the purposes of the computation required by section 172, a partner shall take into account his share of the income and losses of the partnership, subject to the limitation of section 704(d). The net operating loss deduction shall not be allowed in computing the net earnings from self-employment.

O. Specially allocated items.—Distributive shares of items of income, gain, loss, deduction, or credit are to be allocated among the partners under the partnership agreement for sharing income or loss generally. However, where the partners agree, specified items may be allocated among them in a different ratio than that for sharing income or loss generally and such allocations may be recognized in accordance with the provisions of section 704. For instance, if the net income exclusive of specially allocated items is divided evenly among three partners but some special items are allocated 50 percent to one, 30 percent to another, and 20 percent to the third partner, the special items should be reported in line 16 of Schedule K instead of in the other numbered lines on page 1.

P. Attachments.—You may use attachments in the preparation of your return if the lines on the form schedules are insufficient for your needs. The attachments must contain all required information, follow the format of the official schedules, and must be attached to the return in the same sequence as the schedules appear on the official forms. If an attachment is used in place of a schedule having a summary line on page 1 of the form, the total need not be entered on the official schedule, but must be entered on page 1.

Q. Information regarding Schedule K–1.—A Schedule K–1 is to be prepared and furnished to each partner. It reflects the amounts on Schedule K that are allocated to the partner. Since all items on the Schedule K–1 are not applicable to every partnership, a substitute schedule, listing only those items which do apply, may be submitted for the official Schedule K–1. Amounts reported on the substitute must be identified by the official line number and letter designation as well as a sufficient portion of the official line title to properly identify each amount. In addition, the substitute must include all of the information on the official Schedule K–1 that relates to the partnership and partner. The title "Substitute Schedule K–1 (Form 1065)" should be placed at the top of each substitute, together with the taxable year of the partnership.

Specific Instructions

These instructions correspond with line numbers on the first page of the return, and with schedules appearing on its other pages.

1. Gross receipts.—Enter gross receipts or sales from all business operations except those required to be reported in lines 4 through 11.

Installment sales.—If, under section 453, the installment method is used, attach a schedule showing separately for the current year and the three preceding years the following: (a) gross sales; (b) cost of goods sold; (c) gross profits; (d) percentage of gross profits to gross sales; (e) amount collected; and (f) gross profit on amount collected.

Farmer's income schedule.—For farm income, attach Schedule F (Form 1040). (See instruction 9.)

2. Cost of goods sold (Schedule A).—If the production, manufacture, purchase, or sale of merchandise is an income-producing factor in the trade or business, inventories of merchandise on hand should be taken at the beginning and end of the taxable year and may be valued at (a) cost, (b) cost or market, whichever is lower, or (c) any other method approved by the Commissioner. The method of valuing inventory adopted for the first year is controlling, and a change can be made only after permission is secured from the Commissioner. Application to change must be made on Form 311S and filed with the Commissioner within 180 days after the beginning of the taxable year in which it is desired to make the change.

If the partnership wants to adopt the LIFO inventory method provided in section 472, it must file application to do so on Form 970.

Items withdrawn from inventory or purchases for the personal use of individual partners should not be included as part of the cost of goods sold, but should be accounted for in Schedule M, and Schedule K–1.

Cost of operations (where inventories are not an income-determining factor).—If the amount entered on line 2 includes an amount applicable to cost of operations, complete appropriate lines of Schedule A.

4. Ordinary income (loss) from other partnerships, syndicates, etc.—Where one partnership, (partnership A) is a partner in another partnership (partnership B), partnership A will enter on this line its distributive share of ordinary income (loss) from B. If the distributive share is a loss, it must be limited to the amount of the adjusted basis of A's interest in partnership B as of the end of partnership B's year in which the loss occurred. If A's taxable year does not coincide with the annual accounting period of partnership B, include in A's return the distributive share of the ordinary income (loss) for the accounting period of partnership B ending within the period for which the return of A is filed.

Partnership A will consider its distributive share of other items (see general instruction L (1) through (7)) from partnership B as if such items were realized directly from the source from which realized by partnership B or incurred in the same manner as incurred by partnership B. For example, partnership A's distributive share of partnership B's capital gains or (losses) should be reported in lines 2 and 5 of Schedule D (Form 1065). As another example, partnership A's distributive share of partnership B's specially allocated ordinary gains or (losses) should be entered in line 8, Form 4797.

5. Nonqualifying dividends.—Nonqualifying dividends are taxable dividends which are included in ordinary income and for which the individual partner is NOT entitled to an exclusion. Such dividends are derived from the following sources:

(a) Corporations organized under the China Trade Act (section 941);

(b) Corporations which, for the taxable year of the corporation in which the distribution is made, or for the next preceding taxable year of the corporation, are—

(i) exempt from tax under section 501 (charitable, etc., organizations) or section 521 (farmers' cooperatives); or

(ii) corporations to which section 931 (income from sources within possessions of the United States) applies;

(c) Mutual savings banks, cooperative banks, domestic building and loan associations, domestic savings and loan associations, Federal savings and loan associations, on deposits or withdrawable accounts. Dividends from these organizations must be reported as interest.

(d) Regulated investment companies, except to the extent designated by the company to be taken into account as a dividend for these purposes.

(e) Certain real estate investment trusts under sections 856 to 858.

(f) Foreign corporations, including your share from a controlled foreign corporation.

Qualifying dividends are taxable dividends received from domestic corporations and not listed above. See instructions for line 3, Schedule K.

459—16—63175-1

6. **Interest.**—Enter total interest from all sources except (*a*) interest exempt from tax; (*b*) interest on tax-free covenant bonds.

8. **Royalties.**—Enter net income (loss) as shown on the detailed schedule to be attached to the return.

9. **Net farm profit (loss).**—Enter the net profit (loss) from Schedule F (Form 1040). Do NOT include in this line any amounts reported in Schedule K (Form 1065).

11. **Other income.**—Enter any other taxable income and explain its nature in an attached schedule, except those items requiring separate computation (see general instruction L (1) through (7)) which are required to be reported in Schedule K. (See instructions for Schedule K.) Include taxable income from annuities and insurance proceeds.

Deductions

That portion of payments willfully made in excess of Stabilization Guidelines are not deductible as a business expense under section 162(c)(2). (Revenue Ruling 72–236, 1972–1, C.B. 41.)

13. **Salaries and wages.**—Enter all salaries and wages not included in line 29, except salaries to partners.

14. **Payments to partners—salaries and interest (guaranteed payments).**—In computing ordinary income, a deduction may be taken for payments to a partner for services or the use of capital where such payments are determined without regard to the income of the partnership. Do not include distributive shares of partnership profits. Allocate the guaranteed payments to the appropriate partners in line 1, Schedule K–1 (Form 1065).

15. **Rent.**—Enter rent on business property but do not deduct rent for a dwelling occupied by any partner for personal use.

16. **Interest.**—Enter interest on all business indebtedness. Amounts paid by a partnership to a partner for the use of capital should be entered on line 14. However, amounts paid as interest by a partnership to a partner as a result of a transaction in which the partner acts in a capacity other than as a partner should be entered on this line. (The limitations on deductions for unpaid interest are given in section 267.) For information on the deduction of interest incurred on funds borrowed to purchase or carry property held for investment, see sec. 163(d).

17. **Taxes.**—Enter taxes paid on business property or incurred for carrying on business if not reflected in cost of goods sold. Federal import duties and Federal excise and stamp taxes are deductible only if paid or incurred in carrying on a trade or business, or in the production or collection of income, or for the management, conservation, or maintenance of property held for the production of income. Do not deduct taxes assessed against local benefits tending to increase the value of the property assessed, as for paving, etc.; Federal income taxes; estate, inheritance, legacy, succession, and gift taxes; or taxes reported in Schedule K.

18. **Bad debts.**—Bad debts may be deducted—(*a*) when they become wholly or partially worthless, or (*b*) by reasonable addition to a reserve for bad debts. A partnership filing a first return may select either mathod, and that method must be followed for subsequent years unless permission is granted to change to the other method. Application to change must be made on Form 3115 within 180 days after the beginning of the taxable year for which it is desired to make the change. (See Form 1065 instructions for Schedule D on page 4 regarding nonbusiness debts.)

19. **Repairs.**—Enter the cost of incidental repairs, etc., which do not add to the value or appreciably prolong the life of the property repaired. Expenditures for new buildings, machinery, or for permanent improvements or betterments which increase the value of the property are chargeable to capital accounts.

Include in this deduction the total amount of repairs from Form 4832.

20. **Depreciation.**—A reasonable allowance for the exhaustion, wear and tear, and obsolescence of property used in the trade or business or of property held by the taxpayer for the production of income shall be allowed as a depreciation deduction. (Section 167.) The allowance does not apply to inventories or stock-in-trade nor to land apart from the improvements or physical developments added to it. Depreciation on leasehold improvements, patents, and copyrights shall be included in Schedule J.

Adjustments to basis of property:

(*a*) *Additional first-year depreciation.*—If a taxpayer elects to claim the additional first-year allowance under section 179, the basis of the property must be adjusted for the amount of the deduction so claimed.

(*b*) *Salvage value.*—Salvage value must be taken into account in determining the depreciation deduction except under the declining balance method, Class Life (ADR) System, or Guideline Class Life System. In computing the basis on which depreciation may be taken for personal property other than livestock, you need not take into account salvage value that does not exceed 10 percent of the cost or other basis of the property. If the salvage value exceeds 10 percent, only the excess need be taken into account. These provisions apply to property acquired after October 16, 1962, having a useful life of three years or more. (See section 167(f).)

Depreciation Methods

The various methods of depreciation which may be used are:

(*a*) *Straight line.*—To compute the deduction, add the cost of improvements to the cost (or other basis) of the property and deduct the total depreciation allowed or allowable in prior years. Divide the result by the number of years of useful life remaining to the asset. The quotient is the depreciation deduction.

(*b*) *Declining balance.*—A uniform rate is applied each year to the remaining cost or other basis of property determined at the beginning of such year without adjustment for salvage value. For property acquired before January 1, 1954, or used property whenever acquired, the rate of depreciation under this method may not exceed one and one-half times the applicable straight-line rate.

(*c*) *Special rules for new assets.*—The cost or other basis of a new asset may also be depreciated under any of the following methods provided the asset is tangible, has an estimated useful life of three years or more, and its original use commenced with the partnership.

(*i*) *Declining balance.*—This method may be used with a rate not in excess of twice the applicable straight-line rate.

(*ii*) *Sum of the years-digits.*—The deduction for each year is computed by multiplying the cost or other basis of the asset by the number of years of useful life remaining (including the year for which the deduction is computed) and dividing the product by the sum of all the digits corresponding to the years of the estimated useful life of the asset. In the case of a five year life, this sum would be 15 (5+4+3+2+1). For the first year, five-fifteenths of the cost would be allowable; for the second year, four-fifteenths; etc.

(*iii*) *Other methods.*—A partnership may use any consistent method that does not result in accumulated allowances at the end of any year greater than the total of the accumulated allowances which would have resulted from the use of the 200 percent declining balance method. This limitation applies only during the first two-thirds of the useful life of the property.

(*d*) *Additional first-year depreciation.*—A partnership may elect to write off part of the cost of its tangible depreciable personal property, which has a useful life of at least six years from the date of acquisition. The allowance is in addition to regular depreciation allowable on the balance of the basis of the asset and is deductible in the first year in which the regular depreciation deduction is allowable with respect to the property.

The amount that may be written off is up to 20 percent of the cost of the property (before making any adjustment to the basis for salvage value), but the deduction for each partner may not exceed $2,000 ($4,000 if married and filing a joint return). For example, a partnership consisting of A and B, purchased an asset which cost $100,000. Each partner is married and each is filing a joint return. The profit and loss sharing ratio is 50 percent to each. The total that may be written off is $8,000 (20 percent of $100,000 limited to $4,000 for each partner). If the asset had been purchased for $30,000, and the profit and loss ratio had been 90 percent to A and 10 percent to B, the total that could be written off would be $4,600 (20 percent of $30,000, limited to $4,600)—$4,000 for A (90 percent of $30,000 × 20 percent, limited to $4,000) and $600 for B (10 percent of $30,000 × 20 percent).

The total amount of additional first-year depreciation must be shown in line 1 of Schedule J and line 2 of Schedule K, and allocated to each partner in Schedule K–1 (Form 1065), line 2.

Do not deduct additional first-year depreciation on page 1 of Form 1065.

(*e*) *New section 1250 property.*—The double declining balance and sum of the years-digits methods may not be used except for (1) new residential rental property (from which at least 80 percent of the gross rental income is derived from rental or residential units), (2) other new real property acquired before July 25, 1969, and (3) new real property acquired after July 24, 1969, if construction, acquisition, or permanent financing arrangements under a binding written contract were entered into before July 25, 1969. Other new real property acquired after July 24, 1969, may be depreciated only under the straight-line or 150 percent declining balance methods. (See section 167(j).)

(*f*) *Used section 1250 property.*—Used residential rental property acquired after July 24, 1969, with a useful life of 20 years or more, may be depreciated under the 125 percent declining balance method. In the case of used real property acquired after July 24, 1969, where construction, acquisition, or permanent financing arrangements under a binding written contract were entered into before July 25, 1969, depreciation is limited to the 150 percent declining balance method. Other used real property acquired after July 24, 1969, may be depreciated only under the straight-line method. (See section 167(j).)

(*g*) *Rehabilitation expenditures for low-income rental housing.*—An election may be made to depreciate property attributable to rehabilitation expenditures for low-income rental housing incurred after July 24, 1969. Such depreciation may be claimed under the straight-line method using a useful life of 60 months. For details see section 167(k).

Class Life (ADR) System and Guideline Class Life System.—If depreciation is figured by using the Class Life (ADR) System for assets placed in service after December 31, 1970, or the Guideline Class Life System for assets placed in service before January 1, 1971, you must file Form 4832 (Class Life (ADR) System) or Form 5006 (Guideline Class Life System). Except as otherwise expressly provided in income tax regulations sections 1.167(a)–11(b)(5)(vi) and 1.167(a)–12, the provisions of Revenue Procedures 62–21 and 65–13 are not applicable for taxable years ending after December 31, 1970. For more information, get Instructions for Form 4832, Form 5006, and Publication 534, Tax Information on Depreciation.

21. **Amortization.**—If the partnership elects the deduction for amortization of certain expenditures relating to research and experiment (section 174), trademark and trade name expenditures (section 177), exploration (paid or incurred before September 13, 1966) (section 615), and development (section 616), a statement of the pertinent facts should be filed with the return. Do not enter the deductions for amortization of bond premium on this line but include it in line 24.

See section 169 for conditions under which the cost of certified pollution control facilities may be amortized over a five year period.

Also see section 188 for conditions under which the cost of certain expenditures for on-the-job training and child care facilities may be amortized over a period of 60 months.

For details which must be furnished in the statements of election required by these sections, consult your District Director.

22. **Depletion.**—If a deouction is claimed for timber depletion, attach Form T.

23(a). **Retirement plans, etc.**—Enter deductible contributions made by the partnership for its common-law employees under a qualified pension, profit-sharing, annuity, or bond purchase plan, and compensation under any other deferred payment plan.

Note: Every employer who has adopted a pension, profit-sharing, or other funded deferred compensation plan, regardless of whether or not the plan is qualified under the Internal Revenue Code or whether a deduction is claimed for the current taxable year, must file Form 4848 for all plans adopted. In general, Form 4848 is to be filed on or before the 15th day of the 5th month following the close of the taxable year.

23(b). **Employee benefit programs.**—Enter the amount of the partnership's contributions to employee benefit programs for common-law employees that are not an incidental part of retirement plans included on line 23(a). Contributions to employee benefit programs that are to be reported on this line include insurance, health and welfare programs.

24. **Other deductions.**—Enter any other authorized deductions for which no space is provided elsewhere on page 1 of the return, exclusive of those items requiring separate computation (see general instruction L (1) through (7)) which are required to be reported in Schedule K. Do not deduct losses incurred in transactions which were neither connected with the trade or business nor entered into for profit. No deduction is allowable for the amount of any item or part of it allocable to a class of exempt income, other than the allowable portion attributable to wholly exempt interest income. Items directly attributable to such exempt income shall be allocated to it, and items directly attributable to any class of taxable income shall be allocated to that taxable income. If an item is attributable both to taxable income and exempt income, a reasonable proportion of it, shall be allocated to each.

A partnership receiving any exempt income other than interest, or holding any property or engaging in any activity the income from which is exempt, shall submit as a part of its return an itemized statement showing (a) the amount of each class of exempt income, and (b) the amount of expense items allocated to each such class (the amount allocated by apportionment being shown separately).

Schedule D.—Capital gains and losses.—This schedule provides for the reporting of sales or exchanges of capital assets. Every sale or exchange of property must be reported in detail even though no gain or loss is indicated. Exceptions are specially allocated gains and losses which are entered in line 16 of Schedule K and are shown in a separate schedule attached to Form 1065. (See Schedule K instructions for line 16.)

For reporting sales or exchanges of property other than capital assets including the sale or exchange of property used in the trade or business and involuntary conversions (section 1231) see Form 4797 and related instructions.

Basis.—In most cases the basis of property is its cost to the partnership. However, if the property was acquired by gift, inheritance, or in some other manner, a basis other than cost must be used. If the amount shown as the basis is other than cost, full details must be given.

"Capital assets" defined.—The term "capital assets" means property held by the partnership (whether or not connected with the trade or business) but does NOT include—

(a) stock in trade or other property of a kind properly includible in the inventory if on hand at the close of the taxable year;

(b) property held by the partnership primarily for sale to customers in the ordinary course of the trade or business;

(c) property used in the trade or business of a character which is subject to the allowance for depreciation provided in section 167;

(d) real property used in the trade or business of the partnership;

(e) certain Government obligations issued on or after March 1, 1941, at a discount, payable without interest and maturing at a fixed date not exceeding 1 year from date of issue;

(f) certain copyrights, literary, musical, or artistic compositions, letters or memorandums, or similar property; or

(g) accounts and notes receivable acquired in the ordinary course of trade or business for services rendered or from the sale of property referred to in (a) or (b) above.

As to (b) above, the law allows dealers in securities capital gain or loss treatment on certain securities which were clearly identified as being held for investment. Also certain real property subdivided for sale may be treated as a capital asset. Sections 1236 and 1237.

Capital gain distributions.—Report on line 6 as long-term capital gains any amounts which a regulated investment company advises you, as a shareholder, are (a) a capital gain dividend, or (b) the partnership's share of the company's undistributed capital gains. (See line 12 of instructions for Schedule K, Form 1065.)

Losses on securities becoming worthless.—If any securities become worthless during the taxable year and are capital assets, the loss shall be considered as a loss from the sale or exchange of capital assets as of the last day of such taxable year.

Nonbusiness debts.—If a debt, such as a personal loan, becomes totally worthless within the taxable year, the loss shall be considered a loss from the sale or exchange, during the taxable year, of a capital asset held for not more than 6 months. Enter on line 1 such loss in column (f) and describe in column (a). This does not apply to: (a) a debt evidenced by a corporate security with interest coupons or in registered form and (b) a debt acquired in the trade or business.

Collapsible corporations.—Gain from the sale or exchange of stock in a collapsible corporation is not a capital gain. Section 341.

"Wash sales" losses.—Losses from the sale or other disposition of stock or securities are not deductible (unless sustained in connection with the partnership trade or business) if, within 30 days before or after the date of sale or other disposition, the partnership has acquired (by purchase or by an exchange upon which the entire amount of gain or loss was recognized by law) or has entered into a contract or option to acquire, substantially identical stocks or securities.

Installment sales.—If you sold personal property for more than $1,000 or real property regardless of amount, you may be eligible to report any gain under the installment method if (1) there are no payments in the year of sale or (2) the payments in the year of sale do not exceed 30% of the selling price. (See section 453.) Such sales must provide for 1 or more payments in each of 2 or more taxable years.

For treatment of a portion of payments as "unstated interest" on deferred payment sales, see section 483.

Schedule K—Partners' shares of income, credits, deductions, etc.—This schedule should show complete information for all the persons who were members of the partnership, syndicate, group, etc., during any portion of the taxable year. Although the partnership is not subject to income tax, the members are liable for income tax in their separate capacities and are taxable upon their distributive shares of the income of the partnership, whether distributed or not, and each is required to include his share in his return.

A partner may not claim on his separate return a distributive share of loss from a partnership to the extent any such loss exceeds the basis of his interest in the partnership. The excess of such loss may be claimed for later years to the extent that the basis for the partner's interest is increased above zero.

Each partner should be advised by the partnership on Schedule K–1 (Form 1065) of his share of the income, deductions, credits, etc., as shown in Schedule K (lines 1 to 17 inclusive).

Line 3.—Enter the dividends received from domestic corporations, to which the partner is entitled to an exclusion (section 116) on his individual income tax return. (See instruction 5.)

Line 9.—Enter contributions paid by the partnership within the partnership's taxable year. (An itemized list of the partnership's charitable contributions must also be submitted.)

Line 10.—**EXPENSE ACCOUNT ALLOWANCE.**—Expense account allowance means (*a*) amounts other than compensation received as advances or reimbursements, and (*b*) amounts paid by or for the partnership for expenses incurred by or on behalf of a partner, including all amounts charged through any type of credit card.

It does not include amounts paid for (*i*) the purchase of goods for resale or use in the business, and (*ii*) incidental expenses, such as the purchase of office supplies for the partnership, or local transportation in connection with an errand. The partnership should maintain records to substantiate travel and entertainment expenditures.

Complete Schedule K–1 (Form 1065), line 10, for the 25 highest paid partners, including limited partners. To determine the partners the information is required for, all allowances including such expense account allowances and the partner's share of ordinary income must be added to each partner's compensation. Schedule K–1 (Form 1065), line 10, need not be completed for any partner for whom the combined amount is less than $10,000.

Line 11.—Enter taxes described in section 901 which have been paid or accrued by the partnership to foreign countries or to possessions of the U.S.

Line 12.—Enter taxes paid on undistributed capital gains by the Regulated Investment Company. The partnership as a shareholder of a regulated investment company will receive notice on Form 2439 that the company paid tax on undistributed capital gains.

Line 13.—Enter payments by the partnership to a retirement plan on behalf of partners.

Line 14.—Enter the partnership's amount of investment in certain depreciable property by new and used categories, and life years. A partner is allowed a tax credit based on his pro rata share of such investment by filing Form 3468. (For information on whether property qualifies for the credit and for other information, see Form 3468.)

When property is disposed of prior to the "life-years category" assigned, each partner should be notified of the dates when property was purchased and disposed of. The partner must recompute his investment credit using as the useful life the period the property was actually held. In recomputing the credit, the partner must use the life years categories of 0–3 years; 3–5; 5–7; and 7 or more. If the credit taken (including carrybacks and carryovers) exceeds the recomputed credit, the tax for the year of disposition must be increased by the excess. For additional information, see Form 4255.

Line 15.—Enter the partnership's total for each of the applicable items in paragraphs (a) through (f). If there is not sufficient space for listing these items, see general instruction P. Each partner's distributive share of these items will be entered on Schedule K–1 (Form 1065).

(*a*) The total of the income or gain and the total of the deduction or credit of the following items: recoveries of bad debts, prior taxes and delinquency amounts (section 111); gains and losses from wagering transactions (section 165(d)); soil and water conservation expenditures (section 175); intangible drilling and development costs (section 263 (c)); deduction and recapture of certain mining exploration expenditures paid or incurred (section 617); and any income, gain, or loss to the partnership under section 751(b).

(*b*) The partnership's farm net losses, gains from disposition of farm property recapture (Form 4797), and other items applicable to sections 1251 and 1252.

(*c*) For the taxable year, the number of gallons of (*i*) gasoline used (A) on a farm for farming purposes, (B) other than as fuel in a highway vehicle, and (C) in vehicles while engaged in furnishing certain public passenger land transportation service; (*ii*) lubricating oil used other than in a highway motor vehicle, and (*iii*) special fuels used after June 30, 1970 (A) on a farm for farming purposes, (B) in vehicles while engaged in furnishing certain public passenger land transportation service, and (C) for nontaxable uses.

Each partner should attach Form 4136 to his income tax return, to claim a credit on Form 1040 for Federal tax on such gasoline, special fuels, and lubricating oil.

(*d*) For taxable years beginning after 1971, enter the wages paid or incurred by the partnership under a Work Incentive (WIN) Program. The partnership must attach to Form 1065 a separate schedule showing each WIN employees' name, social security number, date employment began, and the qualified salaries and wages paid or incurred. Each partner should be given a copy of this schedule in order to claim a credit for WIN salaries and wages on Form 4874. If a WIN employee is dismissed before the end of the first 12 months of employment or during the following 12 calendar months, each partner must repay (with certain exceptions) any tax credit previously taken on the salaries and wages paid or incurred by the partnership to that employee. For additional information on claiming this credit and for recomputing prior year credit, see Form 4874.

(*e*) The partnership's (*i*) interest on investment indebtedness and (*ii*) applicable items of investment (A) income, (B) expenses, and (C) gains and losses from sale or exchange of such investment property. (See section 163(d).) For further information, see Schedule A (Form 1040) instructions.

(*f*) The gross profit from the partnership's farm and nonfarm business income that is used under the optional method to determine self-employment income.

Line 16.—Enter any items of income, gain, loss, deduction, or credit subject to a special allocation under the partnership agreement which differ from the allocation of partnership income or loss generally.

A partnership that is a partner includes its distributive share of specially allocated ordinary gains or losses from another partnership in line 8, Form 4797.

Line 17.—Enter items of income and deductions which enter into the computation of items of tax preferences. A partner with tax preference items may be required to file Form 462S. See that form for definitions of tax preference items, filing requirements, and tax computation.

Schedule M—Reconciliation of Partners' Capital Accounts.—This schedule should show what caused the changes in the partners' capital accounts during the taxable year. The total of column a of Schedule M should agree with line 19, column (B), of Schedule L for the beginning of the taxable year, and the total of column g of Schedule M should agree with line 19, column (D), of Schedule L for the end of the taxable year. Any difference should be adequately explained in an attached statement.

Schedule N—Computation of net earnings or (loss) from self-employment.

In determining the amount of net earnings from self-employment, exclude income and deductions from the following sources:

Interest.—Interest on bonds, debentures, notes, certificates, or other evidences of indebtedness, issued with interest coupons or in registered form by a corporation or by a government or political subdivision, unless received in the course of a trade or business as a dealer in stocks or securities.

Real estate rentals.—Rentals from real estate, except rentals received in the course of a trade or business as a real-estate dealer.

The following do not constitute rentals from real estate: receipts for the use or occupancy of rooms or other space where services are also rendered to the occupant, such as rooms in hotels; boardinghouses; apartment houses furnishing hotel services; tourist camps; tourist homes; or space in parking lots, warehouses, or storage garages. They are included in determining net earnings from self-employment.

Optional Methods.—A partner may now use the optional methods of computing net earnings from self-employment from both farm and nonfarm income on his individual income tax return. See Schedule SE (Form 1040) for instructions and for the computation of net earnings from self-employment.

Codes for Principal Business Activity and Principal Product or Service

These industry titles and definitions, for use on Form 106S partnership returns, are based on the 1972 revised Standard Industrial Classification system developed by the Office of Management and Budget, Executive Office of the President, to classify enterprises and establishments by type of activity in which engaged.

Using the list below, enter on page 1, under E, the code for the specific industry group from which the largest percentage of "total receipts" is derived. "Total receipts" means gross receipts (line 1a, page 1), plus all other income (lines 4 through 11, page 1). On page 1, under A, state the principal business activity and under B, state the principal product or service which accounts for the largest percentage of total receipts. For example, if the principal business activity is "Retail food store," the principal product or service may be "dairy products."
